U. S. PLANES POUND JAP WARSHIPS

Nelson Says '43 Output To Be Huge

Expects Production in Big Flow Beyond Goal of 60 Billions in War Goods

Lund Has Idea

Wendell Lund Would Have Inspectors Check War Plants

Washington, Sept. 17 (AP)—War production Chief Donald Nelson said today that the nation now "is most at a maximum" of production and that the output of war material in 1943 would be much bigger than the previous year of \$60,000,000,000.

He told the House committee on defense migration, now studying methods for full utilization of manpower, that production would begin in full flow in January.

"We are on the big upswing of production," he declared. Nelson said that the maximum would be reached by the amount you can get out of certain materials and so was governed by other factors such as shipping.

He said he had not studied the feasibility of legislation to control manpower, which Paul McNutt, chairman of the war manpower commission, yesterday asserted was "inevitable" and essential to maximum production.

Placing of inspectors in all important war plants "to see that they are efficiently utilized at maximum skills" was proposed today by director Wendell Lund of the P. B. S. labor production division.

McNutt's suggestion before a House committee on defense migration, saying that the war manpower commission already has power to institute labor market controls and that it should "wait for sweeping legislation."

Paul V. McNutt, manpower commission chairman, told the committee yesterday a national survey of the nation's labor resources was "inevitable" and essential for maximum war production.

Lund, turning to the problems created by plants overstocking labor, against anticipated labor shortage for the war, said that from his observations a saving in manpower requirements could be brought about "if we institute the same kind of inventory controls in the war market that we have in the civilian market."

He said that the government is instituting with respect to critical war materials. "A government attempt to determine the future manpower needs of both the armed forces and the civilian industry was disclosed to Congress by amid indications that the administration soon would seek a national service to combat labor shortages."

Wendell Lund, director of the war production board's labor division, urged government agencies "preparing a decision" on the best and most efficient possible way which can be fully serviced "those who are left outside the war forces."

Until this decision is made, "the danger is that the nation's effort," he said in a statement to the House committee on defense migration.

On the one hand, Lund said, "the army may be taken out of the war in such a way as to cripple production of the war forces need for their maximum efficiency." On the other hand, "it is danger that the armed forces may be denied the men need to operate the war machine."

Until this decision is made, "the danger is that the nation's effort," he said in a statement to the House committee on defense migration.

On the one hand, Lund said, "the army may be taken out of the war in such a way as to cripple production of the war forces need for their maximum efficiency." On the other hand, "it is danger that the armed forces may be denied the men need to operate the war machine."

Until this decision is made, "the danger is that the nation's effort," he said in a statement to the House committee on defense migration.

Reds Acknowledge Germans Break Into Stalingrad Suburbs

Russians Say Nazis Use Many Divisions in Assault and Troops Number Between 300,000-450,000; British Hammer Ruhr Valley War Foundries

By ROGER D. GREENE
(Associated Press War Editor)

Russian headquarters acknowledged for the first time today that the German siege armies, throwing "several tens of divisions" into the assault, had broken into the northwest outskirts of Stalingrad and reported that bloody house-to-house fighting was in progress.

While there was still no intimation that the city was falling, the Soviet radio conceded that the Germans were "still pressing forward . . . sustaining enormous losses."

Vast hordes of German reserves were reported moving up to replace the fallen, some arriving in transport planes landing immediately outside the city.

Dispatches to Izvestia, the Soviet government newspaper, indicated that Nazi Marshal Fedor von Bock had sent perhaps 300,000 to 450,000 troops, led by tanks and supported by swarms of dive

bombers crashing through the northwest gates of the Volga metropolis.

Adolf Hitler's field headquarters tersely summarizing what may be the greatest military assault in history, declared:

"The battle for the fortified city of Stalingrad is progressing without interruption."

This was the Nazi command's only comment on the struggle, but dispatches reaching Switzerland quoted the German propaganda ministry as saying Hitler would issue a special announcement today. This seemed to indicate that the fuhrer expected the swift collapse of Stalingrad.

At mid-day, after bitter fighting throughout the night, the Russian high command stressed successful defensive actions and declared that at least some of the German assault forces had been repulsed or wiped out.

But others held their gains, seizing houses and firing from attics and cellars. Overhead,

clouds of Nazi Stukas and high-level bombers rained death and flaming destruction on the already ravaged city.

As Stalingrad's peril increased Britain delivered another city-smashing attack on the industrial heart of Germany before dawn today, with an armada of perhaps 800 R. A. F. bombers attacking Ruhr valley war foundries.

"A very strong force" left great fires raging in the valley, the British air ministry said, in the 10th night assault on the Reich this month.

Thirty-nine R. A. F. bombers were acknowledged missing.

The fires were not so concentrated as in the 1,000-bomber raid on Cologne, but they covered a wider area," said an American pilot serving with the Canadian Air Force.

D. N. B., the German news agency, said German night raiders attacked Colchester, which it described as "a military district" (Continued on Page 18)

Davis Says Ban Perils U. S. System

Federal Communication Setup Is in Danger. He Tells Committee at Capital

Opposes Petrillo

Director of Information Says Soldiers Need Canned Music

Washington, Sept. 17 (AP)—Elmer Davis, director of the Office of War Information, told a congressional committee today that James C. Petrillo's ban against musical records and transcriptions threatened the war-time national system of communication.

Davis was the first witness before a Senate interstate commerce subcommittee hearing called to determine the effect on public morale of the order by Petrillo, the president of the American Federation of Musicians, forbidding union musicians to make records and transcriptions for radio stations and coin-operated phonographs.

This order, Davis testified, had the effect of halting the making of records necessary to the keeping of audiences by upwards of 150 radio stations.

"A policy which threatens the continued existence of many of these stations is injurious to the national system of communication, and may seriously hamper the work for which this office (or war information) was established, of informing the people about the status and progress of the war effort and the war policies, activities and aims of this government."

Petrillo has contended that the use of "canned music" meant loss of employment for musicians.

Entertains Troops

Davis said also he had been advised the "juke box" playing of recordings was a source of entertainment for troops in and out of the country.

He is not concerned he said, with individual stations or proprietors of "institutions in which juke boxes are located, against whom Mr. Petrillo may have a grievance."

"Our concern," Davis continued, "is primarily with the national interest in maintaining the broadest possible system of radio station communication; and secondarily with the persons with whom Mr. Petrillo has no dispute at all, who are adversely affected by this ruling—the broadcasting stations located far from the sources of supply of available musical talent and in no economic position to serve without recordings; the operator of the candy store across

Tani Is Named Foreign Minister; Holds Two Posts

Career Diplomat Takes Office Held Provisionally by Tojo Since Togo's Resignation

Tokyo (from Japanese Broadcasts), Sept. 17 (AP)—Masayuki Tani, 53-year-old career diplomat who has been president of the board of information since General Hideki Tojo became Premier 11 months ago, was named Foreign Minister today.

He took over the post from the Premier, who has held it provisionally since the resignation September 1 of Shigenori Togo, and will continue also to head the board of information.

The resignation of Togo, who prepared last year's Soviet-Japanese neutrality pact, was widely interpreted at the time as clearing the way for a renunciation of that pact and an attack on Siberia.

Further possible signs that Siberia may be attacked, or that a blow against British India may be imminent, were seen yesterday in a statement attributed to General Shunroku Hata, Japanese commander in chief in China, that "the east Asia war is about to take an important step in cooperation with the European war."

The new Foreign Minister entered the Japanese foreign service in 1914.

He served in China, Germany, the Netherlands and France before becoming first secretary of

the Japanese embassy in Washington in 1927.

He became director of the Asia bureau in 1930 but three years later went to Manchukuo. He was minister to Australia and Hungary in 1936 but returned to Tokyo to become vice minister of foreign affairs under Admiral Kichisaburo Nomura in September, 1939.

In January, 1939, eight months before he became vice minister of foreign affairs, Tani was nominated to be Japanese ambassador to Paris—but the French government rejected him.

The French charged that in the previous July, while he was in China, he had publicly cast doubt on formal French assurances that traffic in war supplies to China through French Indo-China had been forbidden. The Japanese government defended Tani—but had to nominate another ambassador for the Paris post.

Tani, stocky, bald, aggressive, belongs to the small foreign office group which from the beginning has supported the army's program of continental expansion at the expense of China. He was one of the original advocates of the "greater east Asia co-prosperity sphere" policy, which, as counsel or of the Japanese embassy in Manchukuo from 1933 to 1936, he helped to establish.

10 Vessels Damaged in Fierce Hits

Five Hundred Soldier Casualties Inflicted on Japs; Marines Hunt Snipers

Battle Is Waged

Allies and Japanese Fight It Out in New Guinea

(By the Associated Press)

American warplanes striking at Japanese forces in the western Aelutians and in the South Sea were credited today with damaging two enemy cruisers, sinking or damaging at least eight other ships and inflicting 500 troop casualties, while U. S. Marines continued to hunt down enemy snipers in the Solomon Islands.

On the New Guinea front, developments took an ominous turn as Gen. Douglas MacArthur's headquarters acknowledged that Japanese troops had scored a new eight-mile advance in the drive toward Port Moresby.

A United Nations communiqué said the main bodies of the Allied and Japanese forces in New Guinea now were locked in battle only 32 air miles from Port Moresby, with the Japanese exerting heavy pressure.

The communiqué reported that "serious fighting" was in progress in the jungle-choked Owen Stanley mountains, but gave no indication of the turn it was taking.

Battlefront dispatches said the Japanese, strongly reinforced during the past week, were throwing everything into an attempt to reach Port Moresby, a vital post in Australia's outer defenses.

Attacking at both ends of the far-flung Pacific battle theatre, American fliers scored bomb and torpedo hits on two enemy cruisers off Choiseul Island 200 miles north of Guadalcanal in the Solomons, and pounded Japanese shipping and troops in the Aleutian Islands, the Navy announced.

Pacific fleet headquarters said U. S. army planes attacked Japan's chief base in the Aleutians at Kiska Harbor on Tuesday, sinking two enemy submarines, and damaging three submarines, three big cargo ships and "several" smaller craft.

In addition, the raiders killed or wounded an estimated 500 Japanese troops, shot down six planes and set fire to warehouses and supply dumps.

In the Solomon Islands, American Marines were reported to have beat down a third Japanese attempt to regain the prize Guadalcanal air base. The navy said the intensity of the fighting had diminished, with Marine patrols scouring the interior of the island for surviving Japanese bands.

British columns were believed continuing their week-old advance upon Buna, capital of French Madagascar. Island to German Ocean pending an agreement on armistice terms.

A French communiqué announcing Gov.-Gen. Armand Annet's overtures for peace said French resistance continued in the interim, with "the battle still raging as violently as before."

However, other reports said the French Colonials were offering only token resistance to the British, who opened their campaign, at dawn last Thursday in a move to eliminate Madagascar as a base for Axis submarines preying on allied supply lanes to India, China and the Middle East.

No developments were reported in connection with a statement attributed yesterday to Gen. Shunroku Hata, Japan's commander in chief in China, declaring that "East Asia is about to take an important step in cooperation with the European war."

However, Japan named Masayuki Tani, first secretary of the Japanese embassy in Washington in 1927, as her new foreign minister.

Singing Telegrams End

New York, Sept. 17 (AP)—After midnight Friday the young men and women who, via Western Union Telegraph Co., have been warbling birthday greetings at regular tariff rates will be permitted to rest their vocal cords for the duration. Midnight, the company announced today, will be the deadline for special-rate social and holiday greeting telegrams, reservation messages and sing-o-grams. Alexander Simon, Western Union manager, said the cancellation of all flat-rate telegraph services in the nation had been decreed by the company to prevent any possible interference with the efficient handling of the large and growing volume of vital war communications.

Official Explains New Township Budget Plan

Legion Takes Child Welfare to Heart

Campaign Will Be Held Against Neglect During Period of War

Kansas City, Sept. 17 (AP)—The American Legion is opening a new front—a campaign against child neglect in time of war.

Its child welfare commission is ready to tell the organization's national convention, opening Saturday, that the mistake of forgetting the child in the last war must not be repeated.

The Selective Service records, L. A. Williams of Seattle, chairman of the commission, said, show that of the first 2,000,000 men called to arms more than 900,000 were rejected. He added that the rate of rejections for men between the ages of 31 and 36 was nearly twice as great as those between 21 and 25.

"What was happening to these older men in 1918?" he asked. "They were neglected then as boys because of the exigencies of war, and they are the rejected men today!"

Williams reported that the Legion so far in 1942 had spent \$2,789,440 for emergency relief for needy children.

In another report, the American commission is urging the Legion's 1,225,000 members to be vigilant against enemy aliens and sabotage.

James F. O'Neill of Manchester, Vt., chairman of the commission, said that 60,000 Legionnaires in key industrial centers are working with the F. B. I. against subversive elements, and that the commission itself had taken on the task of investigating 50,000 selectees who have failed to respond to the call of their draft boards.

New 'Alien' Bill

Washington, Sept. 17 (AP)—Representative Dickstein (D-NY) has introduced a bill (HR 7550) amending the naturalization act to provide that aliens leaving the country with the armed forces shall be considered as continuing their permanent residence in the United States. They must return to their permanent residences within a year after hostilities have ceased.

Uncomfortably Cold Homes Are in Prospect, Leon Henderson Warns

Washington, Sept. 17 (AP)—Residents of 30 eastern and middle western states who depend on oil for heat, face prospect of "uncomfortably cold homes" this winter. This warning came last night from Price Administrator Leon Henderson, who urged householders to "take out the oil burner and put in coal."

R. G. Burns Quits As Scout Leader In Ulster-Greene

Four-Year Tenure in Area Ends October 15 When Burns Will Go to Upstate City

R. Gardner Burns, who for nearly four years has been the efficient scout executive of Ulster-Greene Council, Boy Scouts of America, has tendered his resignation, effective October 15.

At the first fall meeting of the executive committee of the Ulster-Greene Council, held at the cottage of George Matthews at Lake Katrine Wednesday evening, the committee, with feelings of great regret, accepted Mr. Burns' resignation.

Mr. Burns leaves on October 15 to become scout executive of the Louis Agassiz Fuertes Council, with headquarters at Ithaca. The change is in the nature of a promotion and recognizes the excellent work Mr. Burns has done since he took over the work here December 5, 1938, succeeding William A. Wright.

During Mr. Burns' stay in Kingston a debt of \$3,500 hanging over the Ulster-Greene Council has been cleared off and the number of Scouts in the council has been increased to 1,071, from 672 at the time he took over. In addition Cubbing, for the younger

Coast Patrol Finds Raft, Fires Shot at 'Prowler,' Is Report

Nothing Unusual Discovered, Eastern Defense Command Says; Trains Into New York Are Checked

New York, Sept. 17 (AP)—The Eastern Defense Command announced today that a small raft had been found along the Atlantic coast of Long Island last night and that a shot was fired in an unsuccessful attempt to halt a prowler.

An Army beach patrol, together with police and Coast Guard, later searched the vicinity but "discovered nothing unusual."

The announcement said the incident occurred at about 10 p. m., eastern war time.

The text of the announcement follows: "Last night, September 16, at about 10 p. m., eastern war time, local Coast Guard patrol on a Long Island beach near the Hamptons found a small raft and reported that a prowler was seen running along the beach in that vicinity."

"A shot was fired in an unsuccessful attempt to halt the prowler. An army beach patrol arrived at the scene within a few minutes. Soldiers, police and Coast Guard searched the vicinity but discovered nothing unusual."

Motorists Are Stopped

Bay Shore, N. Y., Sept. 17 (AP)—State and village police throughout eastern Long Island stopped motorists today and requested them and their passengers to identify themselves.

There was no official explanation of the action.

Trains of the Long Island railroad bound for New York also were boarded by authorities who checked on the identities of passengers.

Two trains were delayed for from six to nine minutes at about 6 a. m., eastern war time, while state police and railroad police went through them.

Countywide Group Roosevelt Opposes Move to Alter Farm Salvage Campaign Parity Schedules

Organization Is Set Up to Look for Available Rubber and Scrap Metal in Area

Washington, Sept. 17 (AP)—President Roosevelt, in letters to chairmen of the Senate and House banking committees, expressed "unalterable opposition" today to any move to change the present parity formula for farm prices.

Advised at a White House conference that amendments might be offered to pending anti-inflation legislation to alter the level of parity returns to farmers, the President wrote Senator Wagner (D-N. Y.) and Rep. Steagall (D-Ala.) opposing such a move.

Parity is a price level calculated to give farmers a return for their crops comparable to a past favorable period, usually 1909-14. Some farm bloc members had contended that this formula ought to be revised to take farm wages into

ADIRONDACK TRAILWAYS

Classroom Dunce Killed Girls High In School Work

Bedford Center, N. Y., Sept. 17 (AP)—A sullen youth—neighbors knew him as the "classroom dunce"—sat in a county jail cell today after leading police over the trail that spelled abduction, torture, rape and death for two children whose last achievements were two excellent report cards.

He was Edward Haight, 17, whose home had been a two-room shack with an orange crate as his chair; his victims were Margaret, 7, and Helen Lynch, 8, whose father cooked and cared for them because their mother was a tuberculosis patient in a nearby hospital.

The change of living quarters for Haight appeared to affect him little.

"I might as well get it over with," he mumbled, when he was arraigned in Bedford town court on first degree murder and kidnapping charges. He appeared bored with the proceedings.

Then, manacled to a State Trooper, he began his tour of the place where he confessed he mutilated and killed the children on Monday night. The tour was punctuated with such remarks as:

"Here's where I threw one of them out of the car"—"I threw her off this bridge into the creek"—"I ran over her head with the car here, several times."

Police said that Haight confessed he stole a station wagon and picked up the children Monday night. He drove to a wooded section near this hamlet and raped Margaret. Then, he gagged both and gagging both drove back to town.

Later he drove to a reservoir system, and Helen he drove the. Then he tossed the pond.

On his tour with day, he and the police the site where he gagged the children. "They objected," he said, "I laid them it was a joke."

Attorneys On Gadd Counsel Discuss Points at S

BRINGS LUCK TO ARMY'S AIRMEN

Europe the Japs. character in the Popeye comic strip whence came the Army's name for the vehicle now popularly known as the jeep. Popeye's navigator on one of the old sailor's famous expeditions. So Europe is the symbol of the navigation expedition of the Air Force Advanced Flying School, Turner Field, Albany, Ga.

where navigators are trained for each expedition as Doc Little to Tokyo and Halmirra to the Mediterranean. It's customary of navigators to rub Europe's turning for luck. "Flier Robert Saltsman is doing so here."

organizations expressed belief that no future G. A. R. national encampments would be held.

The only business remaining at the 76th annual encampment was the election of a commander, and John S. Dunser, 93 years old, Oakland, Calif., veteran, was unopposed for the post. George A. Gay, Nashua, N. H., is the retiring commander.

HELD FOR KILLING TWO GIRLS

Edward Haight, M. (right) of Stamford, Conn., is shown in custody of an officer as he was held on charges of kidnapping and killing

City's Honor Roll Third Panel Hung

The third panel of the temporary honor roll of the men now in the armed service of the country has been hung beside the previous two panels in the corridor on the second floor of the city hall. The three panels contain approximately 900 names.

F. J. Knappen of Greenkill avenue, an artist employed on the local W. P. A., designed the temporary panels and inscribed the names on them.

It is planned at the close of the war to take steps toward having a permanent Honor Roll, similar to that containing the names of those who served in the first World War, which is positioned in front of the city hall.

Six Fliers Killed

Birmingham, Ala., Sept. 17 (AP)—An Army bomber crashed into the rocky peaks of Double Oak mountain yesterday with the loss of its six occupants. The B-26 twin-engine medium bomber was demolished in the accident some 20 miles southeast of here, the Birmingham air base said. Visibility was poor at the time of the crash and the pilot was believed to have rammed into the peak just after he turned sharply to avoid another. The plane struck some 400 yards from the Birmingham-Childersburg highway in a rocky area covered with mountain oaks.

Private John Lange of the Army Air Corps has returned to school at Boston after spending a brief furlough with his mother, Mrs. Margaret Lange of 237 East Strand. He was recently stationed at Miami, Fla.

Milkweed as Lifesaver Petoskey, Mich., Sept. 17 (AP)—Michigan today began harvesting milkweed to be used in the manufacture of life preservers for American sailors. It is regarded as even more buoyant than the kapok, used before Japanese occupation of the Dutch East Indies where it grows. The fluff, warmer and lighter than wool, also will be used in aviation jackets.

Last year there were 20,391 automobile "graveyards" containing 918,000 junk cars. Keep 'em Firing—With Junk!

Contract Revisions May Be Proposed

Businesses Would Be Relieved of Uncertainty in Sealing Down

Washington, Sept. 17 (AP)—Revisions of the present war contract renegotiation law which would relieve business of uncertainties caused by frequent actions to scale down profits may be proposed to Congress by the Army, Navy and the Maritime Commission.

Chairman George (D-Ga.) said

representatives of the three agencies would appear before the Senate finance committee Monday when it studies the question of repealing or amending the statute. Other committee members who declined to be quoted by name said it was their understanding that the three agencies had agreed the law ought to be amended to provide for only one renegotiation of a contract, except in cases of fraud.

Presently the agencies are authorized to reopen contracts as often as they deem necessary to keep profits in line with what they consider a reasonable level. Although this level has not been publicized, it is generally accepted to be about five per cent net profit on the amount of the contract. Beyond that the agencies were said to be in agreement on shortening the length of time in which contracts may be reassessed. Under the present law, contracts may be reopened as late as three years after the close of the war to determine if excess profits were made.

George said he had heard that many manufacturers had been denied private financing because their earnings were uncertain and subject to downward revision through the reassessment of their contracts. He said that fact undoubtedly had slowed war production.

Held for Grand Jury

Frank Williams, 30, of Wallkill, arrested at that place Wednesday by Deputy Sheriff Adam Ulrich on a charge of burglary in the third degree, was committed to the Ulster county jail to await action of the grand jury. He was arraigned before Justice Seth C. Lippincott.

Cork is used in 50 different places in an automobile.

The majority of Chile's residents are Catholic.

In Wisconsin

PVT. J. J. AUSONIO

Private Joseph J. Ausonio, son of Mrs. Gustino Ausonio of 646 Delaware avenue is now stationed at Madison, Wis., where he is studying a 10-week course in radio technician work. He was inducted into the army, July 28.

Milk Production Increases

Albany, N. Y., Sept. 17 (AP)—August milk production in New York was three per cent greater than the same month a year ago, the state agriculture department said today, as dairymen reported the best pasture conditions in 14 years. There was an abundance of hay, a department survey found, and silage prospects were good.

A fathom, used as a unit of measurement in sea depth, is six feet.

Blast Injures 14 Persons at Plant

Winchester Arms Factory Is Scene of Explosion; None Badly Hurt

New Haven, Conn., Sept. 17 (AP)—A midnight explosion so powerful that it knocked sleepers from their beds shook the huge plant of the Winchester Repeating Arms Company, injuring 14 persons.

Eight of the injured were taken to New Haven Hospital and six to the plant hospital early today. Doctors said that the condition of none was serious and that the name of the most severely injured worker had been removed from the danger list.

Winchester Works Manager Thomas I. S. Bosk, terming the explosion "accidental," said it occurred in a small, sheet metal outbuilding when a worker dropped a tray containing explosives. Fifteen persons, most of them women, were in the building at the time.

The Army recently declared the Winchester plant a closed area and so strict was the guard thrown about the factory that Richard H. Simmons, chief of the Connecticut office of the F.B.I. was at first not allowed to enter. A police line held back a crowd estimated at 3,000.

Boy Hit by Truck Seriously Injured

Henry Rowles, 8, Is Taken to Kingston Hospital

Henry Rowles, 8, of 113 Newkirk avenue, was critically injured at 5:10 o'clock yesterday afternoon when he ran from behind an ice truck into the tank oil truck of Albert Appa of 21 Third avenue, on Delaware avenue at Second avenue.

This morning the boy's condition was reported as apparently serious at the Kingston Hospital where he was taken after being hit yesterday.

According to Mr. Appa's report to the police he was driving over Delaware avenue and when near the Second avenue intersection the boy ran out from behind the ice truck into the left front fender of the truck, and was knocked down.

The boy suffered a possible fractured pelvis, internal injuries and concussion of the brain. It was expected that X-ray pictures would be taken today to determine the full extent of the boy's injuries.

Bahr Would Have \$1,500 Returned to Him

Newark, N. J., Sept. 17 (AP)—Herbert Karl Friedrich Bahr wants the government to return to him the \$1,500 left of \$7,000 he admitted was given him by the German Gestapo to carry out espionage activities in this country.

Bahr, under 30-year prison sentence as a convicted Nazi spy, disclosed last night through his court-assigned counsel, Frederic M. P. Pearce, that he would ask Federal Judge William F. Smith to restore the cash, seized by customs officials in Bahr's luggage aboard the exchange liner Drottningholm at Jersey City.

Pearce said Bahr would also seek return of \$200 in American currency and \$850 in Portuguese money which he relinquished to the customs agents, a \$450 camera and a \$100 suit of clothes.

Pearce said that Bahr spent all but \$2,000 of the original \$7,000 before leaving Portugal, hid the \$1,500 in a cigar box and declared the rest on arrival.

The money had been given to him to "make some persons loosen their tongues," but he never intended to use it for such a purpose, Bahr testified at his trial.

Willkie Reaches Russia

Kuibyshev, Russia, Sept. 17 (AP)—Wendell Willkie arrived by air today at this branch capital of the U.S.S.R. He came from Teheran, Iran, on an air-tour as President Roosevelt's volunteer Ambassador of American home unity which has taken him through the Middle East and which will include China.

The Dutch introduced the principle of enemy port blockades in about 1384.

Rain and Fog Dispel Heat Wave in Region

Rain and a heavy fog have dispelled the mid-summer heat wave that gripped the city on Tuesday

and Wednesday, the two hottest days so far experienced this month. Tuesday the official city hall thermometer recorded a high of 92 degrees, while Wednesday was even warmer with a high of 93 degrees in the shade recorded.

Showers fell in Kingston during last night, and this morning. There was a heavy fog, and a temperature of 60 degrees recorded. Tuesday the lowest temperature recorded by the city thermometer was 63 degrees while Wednesday

at the same hour a recording of 69 degrees was reported at the hall.

One in every eight motor hicles in Belgium now uses producer gas.

Hormone Sprays Help Insure Apple Quality

Ithaca, N. Y. — Harvest time sprays of hormones that make the apples stick tight to the trees are helping New York orchardists to pick their crop with fewer helpers over a longer period of time.

These sprays are one of the harvest practices apple growers use to assure consumers of good quality fruit, says Prof. M. E. Hoffman of the pomology department of the New York State College of Agriculture. By using the spray as apples start to drop, they make sure that the apples do not fall to the ground and bruise, when pickers are not able

to keep up with the harvest work.

Apples sprayed with hormones continue to ripen as they stay on the tree. As a result, fruits no longer need be picked green to prevent losses from dropping. The spray is particularly valuable for McIntosh and other apple varieties that tend to drop from the tree easily, even before they have reached the stage of maturity that provides fruit of the best color and flavor.

Shortage of the usual number of skilled fruit pickers makes the hormone spray particularly valuable now. Harvest time sprays, along with women and school children who are aiding in the apple picking this fall, help to provide market apples of the usual high quality.

At Camp Edwards Flashes of Life Sketched in Brief**PVT. RAY AMELL**

Private Ray Amell of 714 Broadway, who entered the armed service August 28, is now stationed at Camp Edwards, Mass.

Named Sergeant**SGT. W. J. FERGUSON**

Word has been received that William J. Ferguson, son of Mr. and Mrs. William J. Ferguson of 42 Liberty street, has been promoted to sergeant. Sergeant Ferguson has been in service two years and has the American Defense Medal, awarded to those in service one full year prior to Pearl Harbor. He is stationed at Fort Lewis, Wash.

Ends Furlough**PVT. LOUIS W. BECKER**

Louis W. Becker, private first class, has returned to Fort Jackson, S. C., after spending five days furlough with his parents, Mr. and Mrs. Louis Becker of 33 Clinton avenue. He was inducted into the army, March 25, and prior to that time was employed on the West Shore Railroad.

Foreign Traffic

California officials estimate that the number of foreign licensed passenger cars entering that state this year is approximately 16 per cent below 1941 migration, due to the rubber shortage.

Flashes of Life Sketched in Brief

(By The Associated Press)
School's Out—In Error
Saratoga Springs, N. Y.—An anonymous woman telephoned school officials: "This is an air raid warning."

Officials immediately dismissed 800 students, and now police are seeking the purveyor of the false alarm. No protest is recorded from the 800, who had a half holiday.

Steal It Again—Please

Albany, N. Y.—Mrs. Gertrude McHarg emerged from the hairdresser's to find her automobile missing.

Police found it in a public garage whose mechanics had picked it up for a customer's car. It had received \$15 worth of repairs, including new points and complete overhauling of the ignition system.

Big Button Mystery

Topoka, Kas.—It's "button-button" with a different twist at Frank Coffman's house.

Detectives said Coffman discovered all the buttons in a closet full of clothes had been cut off and stolen. Nothing else was missing.

Sure Cure

Rosalia, Wash.—Postmaster H. C. Roberts isn't one to coddle a complain. He got rid of that irritating corn. He had a toe amputated.

Jap Warner

Gallatin, Mo.—Gallatin citizens are making it hot for the enemy with nightly bonfires, burning up their newly-purchased war savings stamps.

A fragment of each stamp is saved and forwarded to the treasury department with this message: "The money paid for these stamps is now wholly yours. Use it to insure our liberty."

Leave and Learn

Kansas City, Mo.—Junior college students parked their motor cars where they always had, trotted happily off to classes. Then the industrious police not only installed no parking signs, but decorated each car with a ticket.

U. S. Troop Show Abroad

London (AP)—Noel Coward helped to stage the first full-dress theatrical show featuring United States soldiers in Britain.

The play was his "Private Lives" and Coward himself directed the cast through one of the final rehearsals. The performance, in the old London Casino in Soho, which now is the Queen's berry All Services club, was attended by more than 1,800 allied service men and women and London civil defense workers. Nearly 400 were American soldiers.

Despite its high and mountainous interior, Costa Rica has more than a million acres under cultivation, more than six million acres of cattle-grazing land.

The Weather

THURSDAY, SEPT. 17, 1942

Sun rises, 6:40 a. m.; sun sets, 7:06 p. m. L.V.T. Weather, clear

The Temperature

The lowest temperature recorded during the night by The Freeman thermometer was 60 degrees. The highest point reached up until noon today was 75 degrees.

Weather Forecast

New York city and vicinity—Continued warm and humid, with light to moderate winds this afternoon and tonight.

Eastern New York—Continued warm today and tonight except showers and cooler in the north portion tonight.

CLEARING

Pigeons Will Assist

New York, Sept. 17 (AP)—Homing pigeons now in training as future army messengers will carry messages spreading news of the War Bond drive on Saturday in a special derby from New York city to Albany. The messages will include notes from Richard C. Patterson, Jr., state war savings staff chairman, and state administrator Nevil Ford, to Governor Lehman.

The first successful flight across the Atlantic was made in 1919 by the U. S. Navy flying boat NC4.

ADIRONDACK TRAILWAYS

Classroom Dunces Killed Girls High In School Work

Bedford Center, N. Y., Sept. 17 (AP)—A sullen youth—neighbors knew him as the "classroom dunce"—sat in a county jail cell today after leading police over the trail that spelled abduction, torture, rape and death for two children whose last achievements were two excellent report cards.

He was Edward Haight, 17, whose home had been a two-room shack with an orange crate as his chair; his victims were Margaret, 7, and Helen Lynch, 8, whose father cooked and cared for them because their mother was a tuberculosis patient in a nearby hospital.

The change of living quarters for Haight appeared to affect him little. "I might as well get it over with," he mumbled, when he was arraigned in Bedford town court, on first degree murder and kidnapping charges. He appeared bored with the proceedings.

Then, manacled to a State Trooper, he began his tour of the place where he confessed he murdered and killed the children on Monday night. The tour was punctuated with such remarks as: "There's where I threw her out of the car." "I threw her off this bridge into the creek." "I ran over her head with the car here, several times."

Police said that Haight confessed he stole a station wagon and picked up the children Monday night. He drove to a wooded section near this hamlet and raped Margaret. Then, after binding and gagging both children, he drove back to town, bought some razor blades, and drove on to a small bridge. There he mutilated Margaret with a knife and threw her into a creek.

Later he drove to a pond leading into New York city's Kensico reservoir system, and after raping Helen he drove the car over her. Then he tossed the body into the pond.

On his tour with police yesterday, he and the police stopped at the site where he bound and gagged the children.

"They objected," said Haight, sleepily eyed, "I laughed. I told them it was a joke."

Attorneys Confer On Gadd Action

Counsel Discusses Legal Points at Session

Moved for trial Wednesday morning, the action brought by Grace Gadd against Universal Road Machinery Co., and another to recover \$100,000 for death of her husband, Raymond Gadd, was delayed during the day for conference between counsel and the court. Throughout the day the matter of legal questions was under consideration but this morning the selection of a jury to try the issue was started.

Gadd was killed in a motor car crash on October 13, 1940, when a truck of the company crashed at the entrance to the Higginsville bridge across the Esopus. The truck was occupied by Gadd and Edward J. Butler, an employee of the company. Gadd died from injuries suffered. The appeal was based on the contention that the verdict was against the weight of the evidence.

Plaintiff was awarded a \$28,000 verdict on a former trial but the case was sent back after an appeal for retrial. It is the contention of plaintiff that Butler had permission to use the truck and that he drove the truck at the time of the crash. The corporation contends that Gadd had taken the car without permission. Butler contends that Gadd was driving the car at the time of the accident.

N. LeVan Haver appears for the plaintiff. A. J. Cook for the Universal and Chris J. Flanagan for Mr. Butler.

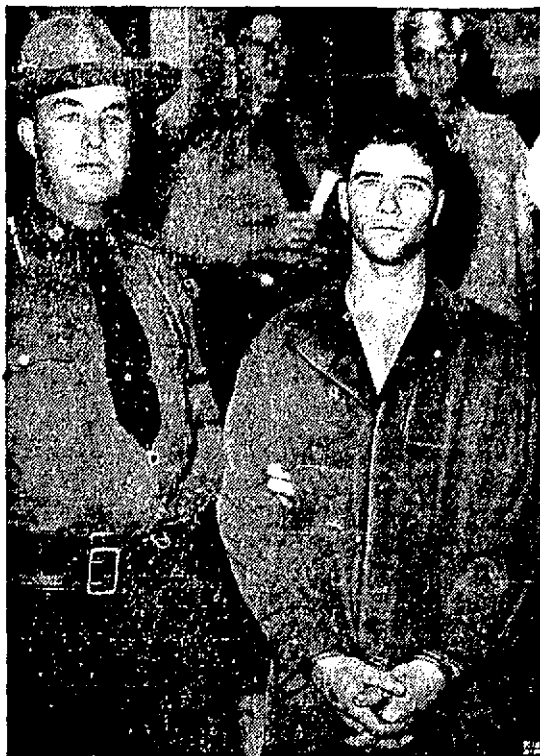

The entire morning session was taken up in the selection of a jury to try the issues.

Named Cashier

William Ziegler of Cleveland, Ohio, a son of Mrs. Jennie Ziegler and the late Mayor William Ziegler of St. Paul, has been elected cashier of the Sugarless National Bank & Trust Co. to fill the vacancy caused by the death of Mayor John F. Carrington. Mr. Ziegler will assume his duties at the bank on November 2.

The Tanager peninsula is the northwestern limit of the Caucasus mountain range.

HELD FOR KILLING TWO GIRLS

Edward Haight, 17, (right) of Stamford, Conn., is shown in custody of an officer as he was held on charges of kidnapping and killing Margaret Lynch, 7, and her sister, Helen, 8, of Bedford Center, N. Y.

Uncomfortably Cold Homes Are in Prospect, Leon Henderson Warns

(Continued from Page One)

In Training

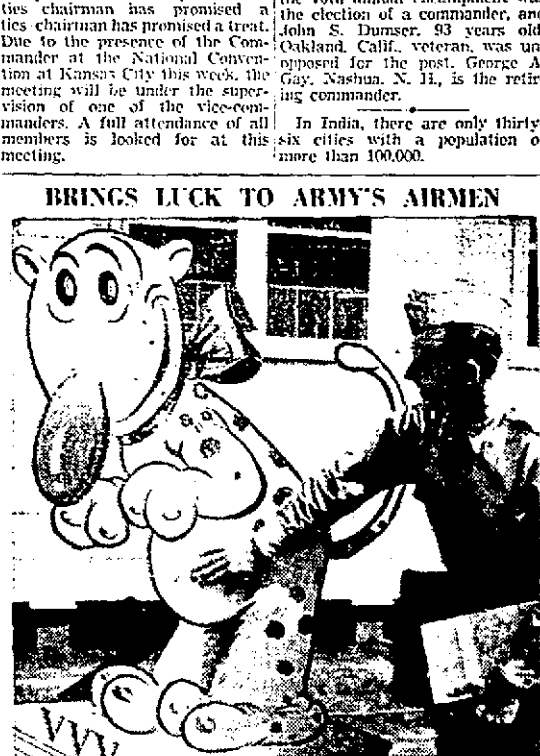

Harold F. Smith, son of Frank W. Smith and the late Mrs. Ida Bailey Smith, returned Sunday, August 30, to the United States Naval Training Station at Newport, R. I., after spending a week's furlough with his family at 11 Stanley street. Before his enlistment in the navy he was employed in the shell plant at Hercules Powder plant in Port Ewen.

Legion to Hold Regular Meeting Friday Evening

The regular meeting of Kingston Post No. 150, American Legion will be held at the Memorial Building, West O'Reilly street Friday evening, September 18 at 8 o'clock. This will be one of the most important meetings of the year and plans will be discussed for the Victory Ball which is one of the highlights of the Legion year. It is expected that committees will be appointed for this important event which takes place on Armistice evening.

All Post committees will make reports of the work done during the past month. The past activities chairman has promised a treat. Due to the presence of the Commander at the National Convention in Kansas City this week, the meeting will be under the supervision of one of the vice-commanders. A full attendance of all members is looked for at this meeting.

BRINGS LUCK TO ARMY'S AIRMEN

Eugene the Jeep, character in the Popeye comic strip whence came the Army's name for the vehicle now popularly known as the jeep, was Eugene's transporter on one of the old sailor's famous expeditions. So Eugene is the symbol of the navigation squadron of the Air Force Advanced Flying School, Turner Field, Albany, Ga., where navigators are trained for such expeditions as Doolittle's Tokyo and Hiroshima's in the Mediterranean. It's customary of navigators to rub Eugene's tummy for luck. *Flier Robert Sells, man is doing so here.*

City's Honor Roll Third Panel Hung

The third panel of the temporary honor roll of the men now in the armed service of the country has been hung beside the previous two panels in the corridor on the second floor of the city hall. The three panels contain approximately 900 names.

F. J. Knappen of Greenkill avenue, an artist employed on the local W. P. A., designed the temporary panels and inscribed the names on them.

It is planned at the close of the war to take steps toward having a permanent Honor Roll, similar to that containing the names of those who served in the first World War, which is positioned in front of the city hall.

Six Fliers Killed

Birmingham, Ala., Sept. 17 (AP)—An Army bomber crashed into the rocky peaks of Double Oak mountain yesterday with the loss of its six occupants. The B-26 twin-engine medium bomber was demolished in the accident some 20 miles southeast of here, the Birmingham air base said. Visibility was poor at the time of the crash and the pilot was believed to have rammed into the peak just after he turned sharply to avoid another. The plane struck some 400 yards from the Birmingham-Childersburg highway in a rocky area covered with mountain oaks.

At Air School

PVT. JOHN LANGE

Private John Lange of the Army Air Corps has returned to school at Boston after spending a brief furlough with his mother, Mrs. Margaret Lange of 237 East Strand. He was recently stationed at Miami, Fla.

Milkweed as Lifesaver

Petoskey, Mich., Sept. 17 (AP)—Michigan today began harvesting milkweed to be used in the manufacture of life preservers for American sailors. It is regarded as even more buoyant than the kapok, used before Japanese occupation of the Dutch East Indies where it grows. The fluff, warmer and lighter than wool, also will be used in aviation jackets.

Last year there were 20,000 automobile "graveyards" containing 918,000 junk cars. Keep 'em Flying—With Junk!

Film Amounts Lessened

Washington, Sept. 17 (AP)—Motion picture producers and distributors, during the year beginning October 1, must get along with 10 to 24 per cent less film than they used during 1941, the

War Production Board announced today. Harold Hopper, chief of the W.P.B.'s motion picture and photographic section, said the principal savings of film were expected to result from fewer "retakes" and less "cutting" in the production of pictures.

NEW PALTZ NEWS

New Paltz, Sept. 17 (AP)—The Double Forty Club met in the Methodist Church parlor Thursday evening, September 10. The business meeting was conducted by the vice president, Mrs. Joseph Graham. An hour of music followed with the following numbers: Jake Rowe and a guest, Mr. Davis entertained with guitar and violin selections, the Rev. David Wesley Soper sang several solos accompanied by Mrs. Soper. The men's quartet, Edward Gulnac, Douglas Alverson, Charles Jerald and Leslie Oakley accompanied by Mrs. C. Jerald, also sang. This program was greatly enjoyed by the following who were present: Mr. and Mrs. Jake Rowe, Mr. and Mrs. Leland Walther, Mr. and Mrs. Leslie Oakley, Mr. and Mrs. Charles Jerald, the Rev. and Mrs. David Wesley Soper, Mrs. Joseph Graham, Mrs. Alvin Beatty and Douglas Alverson.

Kenneth DuBois arrived in New Paltz early last Sunday morning after an eventful trip home. He was on the Navy transport, Wakefield, when headed westward in an Atlantic convoy, it burst into flames last Thursday night and with the 1,599 others on the ship was rescued by Navy boats with only the clothes he had on. Mr. DuBois has been stationed in Iceland a year. After a ten-day furlough at home, he will enter Officer's Training School at Camp Davis, N. C.

Private Raymond Aube spent the week-end with his wife and son, Mrs. Aube and Mr. and Mrs. George Zipper accompanied him to camp Sunday night.

Otto B. Schmidt is visiting relatives at Passaic, N. J.

Mrs. William Blank with her children of Richmond Hill, L. I., have returned home after spending a week with her aunt, Mrs. Howard Eldard.

Mrs. Henry McCormick is visiting her son and family in Dutchess county.

Mrs. Frank Himmelberg recently celebrated her birthday and one of her most prized gifts was a long distance telephone call from her son, Walter Himmelberg in Hawaii wishing her a happy birthday. Mr. Himmelberg is in his second year in Hawaii and his mother said it was just wonderful to hear his voice. Mrs. Himmelberg was visiting at the home of her daughter, Mrs. Edward Balfe of Kingston when the call came through and Mrs. Balfe also had the pleasure of talking with her brother.

Mrs. Esther Fosher has been preparing for an auction sale of

her household furniture September 19.

Mrs. George Mead entertained Mrs. George Lynch and daughter, Sharon, of East Orange, N. J., last week. Mr. Lynch joined them Sunday.

Ensign Richard B. Perkins is now stationed at Norfolk, Va.

Jay LeFevre and Benjamin H. Matteson attended a community meeting in Sullivan county last Wednesday night.

Miss Anna DuBois of Lake Mahopac spent one day the past week with her parents, Mr. and Mrs. Fred DuBois.

Mr. and Mrs. A. Henry were recent visitors in New York. Mrs. Charles Wells and daughter, Charlene, and Mrs. Roy Weyant of Poughkeepsie were recent guests of their parents, Mr. and Mrs. Harry Oakley.

Mrs. George Doxey will leave next week for her winter home in Fort Lauderdale, Fla.

Mrs. June Bliss and Mrs. Faye LeFevre and son, Perry LeFevre, have returned from visiting relatives in Gouverneur.

Robert E. Connolly, son of Mrs. Joseph A. Connolly of New Paltz won first prize in a recent contest for service men for an essay with the topic, "The Beautiful State of Florida," where he is now stationed at the United States Coast Guard Base at Fort Lauderdale.

The Rev. and Mrs. Franklin Dwight, who have been spending the summer at their summer home

PORT EWEN

Port Ewen, Sept. 17—Anyone wishing to contribute something for the boxes to be sent to the men in service for Christmas is asked to get in touch with Mrs. Robert Henry at the post office.

An important business meeting of the Epworth League will be held at the Methodist Church Hall tonight. Every member is urged to be present.

Mr. and Mrs. Floyd Ellsworth made a trip to Middletown Wednesday where their son, Nelson, has been a patient in the Horton Memorial Hospital. Nelson returned with them.

At a meeting of the Friendship Society at the Methodist Church Hall the following officers were elected: President, the Rev. F. W. Coutant; vice-president, Cyril G. Small; secretary, Mrs. R. Howe; assistant secretary, B. C. Potter; treasurer, Mrs. William Schweigel; chairman of the game committee, C. G. Small. After the business meeting games were played and a social hour enjoyed. Refreshments were served.

The Ladies' Bowling League will begin games tonight at 6:45 o'clock in the Reformed Church bowling alley. The following are members of the league this year: Mesdames Adolph Munson, Floyd Ellsworth, Lillian Walker, Walter Schussler, Hettie, Clifford Davis, William Webster, Horace Woolsey, Edward Maine, Culver, Ten Brock, John Reynolds, Harry Goldsmith, Ralph Booth, Lester Ellerbrook, Henry Schmidt, Robert Torrens, Percy Bovee, George Bonesteel, Fred Spalt, David Harris, John Short, John Henry, James Sleight, Herbert Christian, Fred DeWitt, Kenneth Bovee, Albert Munson, Miss Grace Fairbrother, Miss Jessie Torrens, Miss Helen Schryver, Miss Bertha Siebert, Miss Emily Lounsbury.

The junior choir of the Methodist Church will meet Friday evening at 6:30 o'clock.

Germans Lose 24 Ships
London, Sept. 17 (AP)—A Reuters dispatch from Stockholm today quoted what it called a reliable Norwegian report that 24 German-operated ships were sunk last week off the coast of Norway by allied planes and submarines.

In Stuart days it was the custom to put a piece of toast in the wine-cup to give the liquor better flavor; hence the English phrase "drinking a toast."

Grahamsville Fair Attendance Drops

Crowd, However, Is Good Considering Times

There was a good attendance at the one-day fair of the Town of Neversink Agricultural Society, held at the fair grounds just west of Grahamsville, Wednesday, although naturally not up to previous years, when everybody had "gas to burn" and didn't have to worry too much about tires. No accidents were reported and state troopers were on hand to help direct traffic.

Treasurer Sumner W. Krum said this morning that there were 3,656 paid admissions to the grounds, while school children under 12 admitted free, with officials and helpers, would add another five or six hundred to the attendance.

Last year paid admissions totaled 8,100 and one of the best years showed over 8,600.

It was the 63rd annual exhibition of the society, whose fairs, since the days of the Chicago Exposition, have been widely known as the "World's Fair." It is an institution that more and more has assumed the character of an "old home week"—or day, to be exact and former residents of the locality come to Grahamsville from considerable distances to meet and greet old friends. Patronage of this kind was largely kept at home this year because of gas rationing and much of the drop in attendance was due to this.

Emmet Slater is president of the society and both he and George W. Moore, vice president, have held their offices for something like 40 years. Robert T. Many is the general superintendent, a position long held by the late Dr. W. H. H. Hoar, prominent Grahamsville physician. Sumner W. Krum is treasurer and Earl D. Sheeley, secretary.

Men on 'Tree' Canvass Not With Local B.P.W.

It has been called to the attention of the Board of Public Works that men are engaged in making a house to house canvass of the city calling householders attention to the condition of the trees standing in front of their homes.

These men, according to reports made to Acting Superintendent Max Oppenheimer, claim they are working in co-operation with the Board of Public Works. Mr. Oppenheimer said today that this is not true as the board has not given anyone authority to make such a statement and the board has not authorized anyone to make a survey of the trees in the city.

The larvae of the Hessian fly attack the stem of wheat, barley and rye and are extremely destructive to wheat crops.

Of all trucks on American farms, one-third are more than 10 years old.

YOUR FOOD—AND NUTRITION

Increasing demands are being made upon all of us these days, as the war effort grows. Physical strength is needed, also steady nerves and clear minds. All of these qualities depend to a great extent upon nutritious food. Eating the right food every day is a help to morale. Foods rich in vitamin B build steady nerves. Pork chops are among the best sources of vitamin B and they also contain high quality protein to form and repair muscle tissue. And the fat is fuel for energy.

A meal based upon pork chops is certain to be substantial and satisfying to the keenest appetites. Pork chops deserve their popularity for they are not only delicious but they are very valuable in our diet.

Pork chops are among the foods which benefit by the right cooking method. There is an art in cooking pork chops to perfection, and it isn't a hard one to acquire. It is strange, therefore, that some homemakers still destroy their tenderness and fine flavor by cooking them too fast, at too high a temperature.

Braise Pork Chops
The first thing to remember is to allow plenty of time for cooking them, from forty-five minutes to an hour, depending upon their thickness. And chops are best when cut thick, from three-quarters of an inch to an inch or more.

Pork Loin Chops

Pork chops should always be braised. Do not broil them. They need a longer, more thorough cooking method than broiling to bring out their full flavor.

In cooking pork chops, it isn't necessary to add liquid because enough will cook out of the meat to form steam, when the pan is covered after browning. In browning, it isn't necessary to add fat to the pan, if the chops have a good covering of fat. Begin cooking with fat edge down and enough will cook out to grease the frying pan. When the chops are nicely browned on both sides, reduce the heat, cover the pan closely and cook slowly until they are thoroughly done. Turn them occasionally so that they will cook evenly.

Stuffed Pork Chops
Pork chops take well to the use of stuffings. The stuffing will absorb some of the flavor of the meat with which they are cooked. Since pork chops are concentrated nourishment, one thick chop with dressing makes a substantial individual serving.

Pork chops are cut from the rib section. When cut thick, each chop contains a rib. Chops cut from the blade end of the loin contain a portion of the blade bone, from the sirloin end a portion of the hip bone. Butterfly pork chops are slices from the blade loin, cut double thick and opened out.

To stuff thick rib chops, make an incision from the side next to the bone. The membrane along this side contracts on heating and holds the edges of the pocket together so that there is no need of toothpicks or skewers.

For other chops, the dressing may be placed on top, after one side has been browned. Any bread stuffing may be used. A cracker stuffing is always good. Stuffed pork chops may be baked in the oven, in a covered dish, as well as on top of the range.

Pork Chop Favorites
5 pork chops
2 tablespoons lard
1½ cups cracker crumbs
1 medium onion
1 hard cooked egg
½ teaspoon salt
1½ cups milk
Have chops cut 1 inch thick. Brown them in hot lard. Combine cracker crumbs with grated onion, chopped egg, salt and one-half cup of milk. Arrange a mound of dressing on top of each chop and place in a baking dish. Pour remaining milk over the chops and cover. Cook in a moderate oven (350 degrees F.) for 2 hours, uncovering the last 30 minutes.

Rummage Sale
The Woman's Auxiliary of the Y. M. C. A. will hold a rummage sale in the Bailey Building, 628 Broadway during the week of September 28 to October 3. In addition to wearing apparel for men, women and children, and household furnishings, the women will have home grown fruit and vegetables for sale. Anyone having a surplus of garden produce is requested to donate it to the auxiliary, to help the Y. M. C. A. All those requesting articles for the sale are requested to leave them at the building, Monday, September 28, or later. If that is impossible, telephone Mrs. Adam Thiel, 2575-J or Mrs. Edward DeWitt, 3392-M and they will be collected.

Stuffed Pork Chops for Hearty Meal

Butterfly pork chops with a tasty cracker dressing are served with buttered cauliflower, carrots and peas, and whole wheat muffins, a meal designed for health and vigor. They are popular and very valuable in our diet.

Daily Menus

By MRS. ALEXANDER GEORGE

For New Homemakers

(When honey is used in baked cakes and cookies the pans should be well greased to prevent sticking.)

Dinner Serving Two
Browned Fish Fillets
Lemon Quarters
Buttered Green Beans
Corn on the Cob
Wholewheat Bread Plum Butter
English Chutney
Mocha Maple Custard Dessert
Coffee

English Chutney
5 cups chopped apples
1 cup chopped green peppers
½ cup finely chopped onions
2 cups seeded raisins
1½ tablespoons salt
1 tablespoon grated lemon rind
1 tablespoon powdered ginger
1 cup grape juice
2½ cups vinegar
1 cup sugar
½ cup lemon syrup
½ cup lemon juice

grind apples, peppers, onions and raisins, add rest of ingredients. Bring to boil and simmer until thick. Pour into jars and seal immediately.

Mocha Maple Custard Dessert
¼ cup flour
¼ teaspoon salt
2 eggs, beaten
2 cups milk
1/3 cup maple syrup
½ cup coffee
1 tablespoon butter
½ teaspoon vanilla
1/3 cup broken nuts
Mix flour, salt and eggs, milk, syrup and coffee. Cook until thick and creamy. Add butter and cool. Stir in vanilla and nuts. Chill and serve plain or with sliced fresh or canned peaches.

For a flavor change, put ½ teaspoon of curry powder into each 2 cups boiled rice. Serve with creamed chicken, meat, ham or vegetables. This is good when the rice is to be made into a ring.

cooked until blended and then served unmolded and filled with Creole Shrimps. Try it!

Tomatoes and tomato juice are excellent sources of Vitamin C. Tomatoes are abundant right now and inexpensive.

Displays Mushrooms

A display of arrangements of mushrooms and mosses, by members of the Ulster Garden Club, is being shown in the Burgevin window on Main street. "Dave" remarked this morning that most of those shown are not of the edible variety although there are two or three that could be eaten safely. Some of the specimens shown were said to be rather rare varieties. One of them looks for all the world like a sugared doughnut—or cruller—whichever you prefer.

Amber has been used as ornaments for more than 2,000 years. It once was highly regarded as a charm against witchcraft and disease.

Argentina has a huge corn surplus.

Get After Constipation Before It Gets You!

There's hope and happy days ahead for many of you constipation sufferers! You can avoid the constant dosing with emergency medicines. If only you get at the cause of your trouble! If your constipation, like that of millions, is due to lack of "bulk" in your diet, here's what to do: Eat KELLOGG'S ALL-BRAN daily and drink plenty of water. ALL-BRAN is a crisp, crunchy, delicious cereal that supplies the "bulk food" you may need. It not only helps you get regular, it helps keep you regular, week in, week out. Try KELLOGG'S ALL-BRAN. Eat it regularly. You'll be amazed at what it may do for you! ALL-BRAN is made by Kellogg's in Battle Creek. If your condition is not helped by this simple treatment, it's wise to see a doctor.

Five Men Accused Of Operating Tire Bootlegging Ring

Former Army Colonel Is Among Group; Correa Cites Illegal Sales Through Mails

New York, Sept. 17 (AP)—A former army colonel and four other men stood accused today of operating what the government termed the largest tire-bootlegging ring in the nation organized to sell illegally recapped automobile

tires. Three of the defendants are in custody and the other two were sought today.

Federal Attorney Mathias F. Correa said the "black-market" operators disposed of the tires by declaring them to be used, not recapped, although ration certificates are necessary for the purchase of recapped tires, they are not needed for the sale or shipment of used tires.

Correa said the ring operated by sending out circular letters to taxicab companies, trucking concerns and dealers in auto accessories in Virginia, Maryland, Tennessee, Washington, D. C., and New York.

The three defendants arrested and arraigned in U. S. District Court were Leo Handler and Michael J. Cryne of Brooklyn and Richard Guest of Manhattan. Correa said Guest was a former con-

fidence man convicted of mail fraud in 1934 and now wanted in Boston on another mail-fraud charge. Each was held in \$5,000 bail.

Handler and Cryne waived hearings and Guest was to decide today if he wants a hearing preparatory to grand jury action. The other defendants are George A. Lynch of Freeport and Martin Mandell of Brooklyn.

Correa identified Lynch as a former army colonel, but gave no further description of him.

OPA officials said that the ring sold recapped tires at prices substantially over the ceilings established by the government. Tires were sold by the syndicate for prices ranging from \$17 to \$50, they said, including recaps which before the war were worth no more than \$6 or \$7.

As many as 50 tires were sold to one buyer, they said. There was no explanation as to where the defendants obtained the large number of tires.

Irving C. Rutter, OPA official, said that the offense was "a crime which constitutes so great a sabotage as to be material aid to the enemy."

The defendants face a maximum penalty of two years imprisonment and a \$10,000 fine each since they are charged with ordinary conspiracy to violate the war powers act.

Mr. Lehner has been engaged in the retail shoe business on lower Broadway for 49 years. He has been located at 37 Broadway for the past quarter of a century.

"WE'VE CARRIED 75 MILLION WARTIME TRAVELERS - since Pearl Harbor"

Let This Typical Greyhound Bus Answer From Experience Your Questions About Travel Today

Have you really carried that many people?
"Well, personally I've carried close to 38,000 passengers in the last nine months—but all of us Greyhound buses together have served more people than ever before... over 75 million travelers."

Does a bus save essential war materials?
"I don't want to boast, but I'm using only a fraction as much rubber and fuel per person, per mile, as private cars do—and I'm bettering my old records every day."

When's the best time to travel?
"I can answer that easily—on Tuesdays, Wednesdays, or Thursdays, avoiding the more crowded week-ends. It's also well to skip holidays and other rush periods whenever possible."

How else can travelers help?
"By accepting occasional inconveniences with a smile! It helps, too, if you cut down on the amount of baggage you take—and if you get tickets and information in advance."

Is your job different now?
"Yes, in a sense. I only operate on the most vital routes today. Once I was a Limited, but such service has been eliminated—along with many extra sections and all duplicated service."

GREYHOUND LINES

Official Explains New Township Budget Plan

(Continued from Page One)

asked to visit Ulster county by County Attorney Roscoe V. Elsworth and explain provisions of the new system.

Mr. Wadagnolo was presented by Mr. Elsworth and he stated that the law had become effective back in January 1934 when towns of the first class were permitted to adopt the budget system. Since then about 125 towns have been operating under the system which in 1941 was extended to towns of the second class and which under the law now must adopt the system on January 1, 1943.

Similar to City, County Plan

In explaining the budget system Mr. Wadagnolo said the system was similar to that which has been in effect in counties and cities for some time where an annual budget is prepared and adopted. Between September 20 and 30, he said, all town officials and departments must prepare a budget of expenditures and an estimate of revenues for the ensuing year. These facts are set before the town board and a preliminary budget is then made up and after a public hearing the town board has an opportunity to revise the budget if public suggestions will aid them. Then the budget is formally adopted and presented to the Board of Supervisors for the levy. The Board of Supervisors has no jurisdiction as to the amount of the town budget or the right to make any change, its sole purpose is to levy and make the amount demanded by the town.

In the preparation of the budget this year, which will be the first time any town has prepared such a budget, Mr. Wadagnolo said special care should be taken in estimating revenues. Miscellaneous revenues should be carefully studied from former years and as near a true estimate as possible made since any over-estimate of prospective revenue would hamper the system later when it was found the revenue had been overestimated and it was found the budget was "out of balance" and funds falling short. This estimate of revenue is one of the most important things to consider in making up the budget.

The purpose of the budget system is simply to control expenditures and set up a system of revenue and income and a system of expenditures which will determine and bind the town to a certain spending program for any single year.

In the preparation of the budget there is one item which the town board finds itself without jurisdiction to change and that is the amount of money to be raised by a fire district. Such district is required to submit its estimated expenditures to the town board and the town board has no power to change that fact brought forth numerous questions as to what a fire district might include in its estimated budget. One question was whether a fire district could include in its budget an amount in excess of expenditures in an endeavor to build up a surplus for some future expenditure such as erection of a fire house. Mr. Wadagnolo said this was "to be discouraged" since it was the imposition of a tax on the present taxpayer for the benefit of future generations.

This being the first year of the

budget Mr. Wadagnolo said the town boards should be guided very widely by the expenditures of prior years. He said all bills should be paid from the budget during the year they fall due but this year because of the fact that some towns might have large amounts due it was permissible under the law to extend the payment of these bills over a five year period from January 1, 1943, or to pay them in five annual installments. In the event a town now has bills of a considerable amount which might make the 1943 tax rate too high a portion may be placed in the next budget year and paid off. All current bills however he said must be paid within a five year period.

Once the preliminary budget has had its public hearing it must be adopted as the annual budget within five days, that time being allowed to make any corrections or changes as suggested at the public hearing.

Mr. Wadagnolo said that once the preliminary budget was adopted by the town board it became the budget for that town and the Board of Supervisors had no power to make any changes but was required simply to make the tax levy.

The statement that all town officers including town highway superintendent were to receive a straight salary and turn back to the town all fees collected brought forth a discussion as to the amount of the salaries to be paid. Mr. Wadagnolo said that the time spent, the services rendered and the quality of such services should be a guide as to the amount to be paid. Not only are salaries to be fixed by the town board but it was stated that the town board should fix the hourly wage for highway laborers and include a sufficient amount in the annual budget to pay such laborers. This brought forth a question as to whether the hourly wage of highway laborers could be changed by the town board during the year after the rate had once been fixed. Mr. Wadagnolo said this was not clear but any wage adjustment could be made at the end of the year.

In times of emergency when wages are being boosted such as the present time, one supervisor stated that it might be impossible to have a stable wage throughout the year. Unless wages were adjusted during the year it might be impossible to get any laborers. County Attorney Elsworth said that in his opinion highway laborers' hourly wage probably could be adjusted during the year in such an event provided the money allocated for such wages in the budget was not exceeded. It might mean higher wages per day for a man and fewer days work.

The salary question brought up the matter of constables. It was stated that constables being town officers were entitled to a salary but that such salary could be based on a daily, weekly or monthly rate. This also applies to special policemen in towns where there is not a regular police force. A constable performing civil work may retain the fees from that day.

A justice of the peace in any town who performs more services than another justice may be paid a salary in proportion to the amount of work which he does. It was

stated that in many towns one justice did the bulk of the work and Mr. Wadagnolo was asked whether there could be a difference in the salary paid. He said this was possible.

The registrar of a town, not being a town official, will not be

paid a salary as such officer but will be paid as in the past a fee, such fee to be provided for in the annual budget. In some instances the registrar is performing the duties of a town officer such as town clerk but his duties as registrar are not a part of his

town duties and he would therefore be entitled to the fees as registrar.

Mr. Wadagnolo said that the salary for town officers was to be in lieu of fees formerly collected and retained by such officer. The fees are to be collected as in the

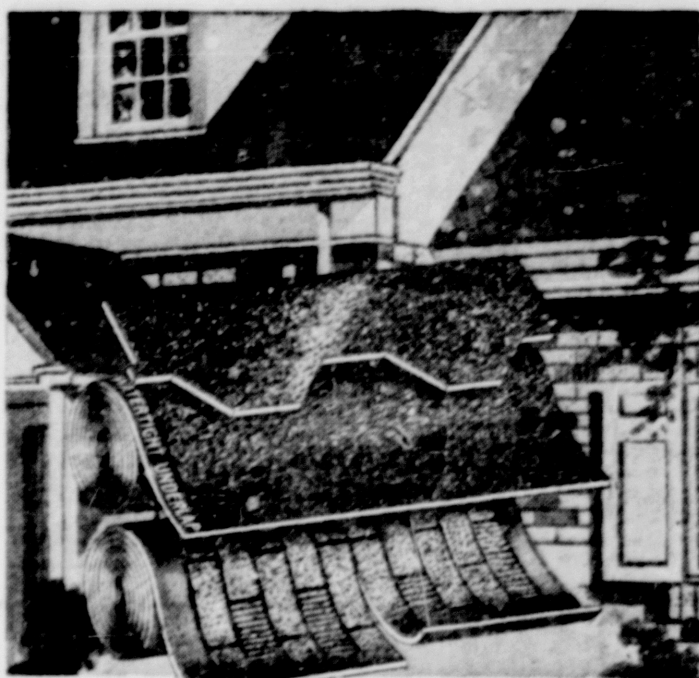

past for certain duties but are to be turned back to the town supervisor with a statement thereof by the fifteenth of the month following receipt of such fees. If such fees are not reported and returned by the fifteenth of the following month the salary of the

official is to be withheld. Following the talk by Mr. Wadagnolo an opportunity to ask questions on problems of any one town was given and many of those present sought information. Each supervisor has been provided with a handbook containing a simple

statement of the provisions of the law and Mr. Wadagnolo said this book should be thoroughly studied before the system is placed into effect. Books for the installation of the system are now being prepared and will be available before January first.

ODT Rating Exceeded By Many Livestock Trucks

As a rubber saving measure more than half the livestock trucks checked in a recent study at the Chicago Union Stock Yards hauled loads that equalled or exceeded ODT rated tire load capacities both to and from market, according to R. C. Ashby, chief in livestock marketing, University of Illinois college of agriculture, who made the study.

Of the 226 trucks, 115, or almost 51 per cent of them, hauled loads both ways that equalled or exceeded the ODT rating, he reported.

One hundred of the trucks, about 26 per cent of them, hauled 100 per cent or more of capacity on one trip but less than 75 per cent of capacity on the other. There were only 51 trucks, or about 22 per cent, that hauled less than 100 per cent of capacity both ways. On inbound trips 152 of the trucks, or 67 per cent, hauled loads exceeding 100 per cent of rated tire capacity.

Truckmen estimated they could continue hauling for nine months with their present rubber. This was the average for all 226 trucks, based upon mileage expectancy for their poorest tires.

Results of similar surveys for the National Stock Yards, Peoria, Ill., and the Springfield, Ill., markets will be available soon.

The Clean and Neat Girl Is the One Who Appeals

Girls who give evenings at community centers to entertain men in uniform, discover that to do the rumba isn't enough to insure popularity with boys in khaki and blue. To dance well is an asset of course, but it counts lots more when the girl herself is a dainty partner, whose appearance from head-to-foot implies a wholesome acquaintance with soap and water. In army or navy life, boys quickly develop a deep respect for cleanliness which makes them critical of anyone whose standard in this respect is not high.

Especially in hot summer months the girl who wants to be a genuinely pleasant dance partner must be careful about soap-and-water cleanliness. In every detail she should be as though she had just stepped from her bath—which, indeed, is just what she must do. She would have a poor opinion herself of any soldier who came to a dance straight from maneuvers without a shower and a change, and the rule applies just the same to her.

Freeze Fruit Without Sugar

A housewife can keep her sugar ration untouched if she preserves some fruits in a freezer locker, according to H. C. Diehl of the Western Regional Research laboratory of the department of agriculture.

Although fruit for freezing is usually combined with sugar or sugar syrup, it will freeze successfully in some kinds of corn syrup or mild-flavored honey. High conversion corn syrups, those high in dextrose, are especially suitable. Because corn syrup is less sweet than ordinary sugar, enough can be used to give the fruit firmness and high gloss without making it oversweet to the taste. Mild flavored honey combines well with fruit in freezing, but strong flavored darker honey may mask the natural fruit flavor.

Some fruits freeze successfully with no added sweetening. All the berries except strawberries can be put up in the freezer locker without sugar, corn syrup, honey or other sweetening. Some sugar can be added later when the fruit is served for dessert, unless the family has learned to enjoy eating fruit "as is."

Shoals Hamper Shipping

A number of islands fringe northern Maranhao and several deep-cut inlets would seem to provide convenient highways for marauding craft. The shoreline, however, is low and sandy nearly everywhere, with few safe anchorages or landing places. Most of the rivers which find outlet along this mangrove-hedged, hot and muggy equatorial coast are shallow and choked with surounded sand banks. Their entrances are barred to ships with a draft of more than 12 or 13 feet.

Prophetic Statement

Johann Adolph Hasse, German composer, made this generous and prophetic statement about the young Mozart, Mozart, who was less than 15, composed a dramatic serenade for the wedding of Archduke Ferdinand and the Princess Carolina of Austria in 1771. Hasse wrote an opera, "Ruggiero," for the same occasion. When Mozart's composition triumphed over the other, Hasse gave unstinted praise to the boy rival and made the now well-known prophecy.

Production of trucks in the United States during 1941 reached an all-time high of 1,042,085 commercial units.

Jeffers Is Big Man In Several Ways, His Workers Know

New Rubber Czar Is No Machine and He Has Fine Feeling for Those Who Toil to Live

Omaha, Sept. 17 (Wide World)—The nation's new rubber czar and the giant locomotives that roar over the tracks of the railroad he directs both have the power it takes to haul a tough load to its destination.

William M. Jeffers, choice of President Roosevelt and war production chief Donald Nelson to direct the rubber program, even looks like a locomotive.

He is big and husky. He weighs more than 200 pounds and is just one inch under six feet.

But 66-year-old Jeffers, who rose from a \$15-a-month Union Pacific call boy to president of the railroad in 1937, is no machine. He has never lost his touch with the man in overalls and they love him for the way he speaks for them.

His most recent declaration in that regard came after he observed what he believed was too many "society folks" getting recognition in the administrative work on the Red Cross.

He sat down and wrote National Red Cross chairman Norman Davis that if the Red Cross was to do its job, the people who eat in the kitchen must be permitted to take some of the bows along with the socialites.

"The backbone of this democracy still eats in the kitchen," was his succinct remark to Davis. And the Red Cross chairman responded by calling on local chapters to give the working man more representation on administrative boards.

Conservative members of the Omaha Chamber of Commerce were surprised when Jeffers suggested "the little fellows, who in reality are the big men," be given a part in chamber activities. He purchased ten memberships in the Chamber for representative conductors, brakemen, engineers and other clerical and operations Union Pacific employees.

Bernard Baruch, in his report on the rubber situation, said that unless the needs are met, the country faces military and civilian disaster. That's another way of declaring unless the problem is solved Hitler and his Allies will win.

Saw War Back in 1939
But back in 1939 Jeffers was saying "Hitler isn't going to win this war and we should tell him we're going to see that he doesn't win." Jeffers' comments brought him hundreds of letters in bitter protest, but Jeffers stood his ground. He knew there was a war to win and America had a part to play in the victory.

And now, given a job that may mean the difference between victory and defeat, Jeffers plans to administer it in the same way he has handled many a tough assignment. In his own words:

"When you want to find out what's going on, you go out and ride the rails. You talk to the man at the machine, the section foreman, the man who's doing the job. I make it a practice to find out what's needed, then open the throttle."

Jeffers, born in North Platte, Neb., Jan. 2, 1876, quit school when he was 14 to help support his family. He took a job as call boy for the Union Pacific railroad. Later he became a telegrapher and a clerk in the maintenance of way department.

Gradually he climbed to more important posts. He became general manager in 1916 and one year later he was named general superintendent. He was promoted to executive vice president in 1932 and became president in 1937.

The problems he must solve are many and technical. He'll be the complete boss. He must reorganize, consolidate and administer all the efforts of the government to alleviate the rubber shortage. He must work out a 100,000 ton increase in butadiene output to come into production in six months. He must direct building of facilities for production of 100,000,000 gallons of alcohol for use in the synthetic rubber program. He must boost synthetic production to the point where it will be possible to relax restrictions on civilian driving. Above all, he must meet military needs.

But Jeffers was told there was a job to do. The President and Nelson believe he is the man to do it. The 10,000 employees of the Union Pacific, a surprising number of whom Jeffers knows by name, are betting on him.

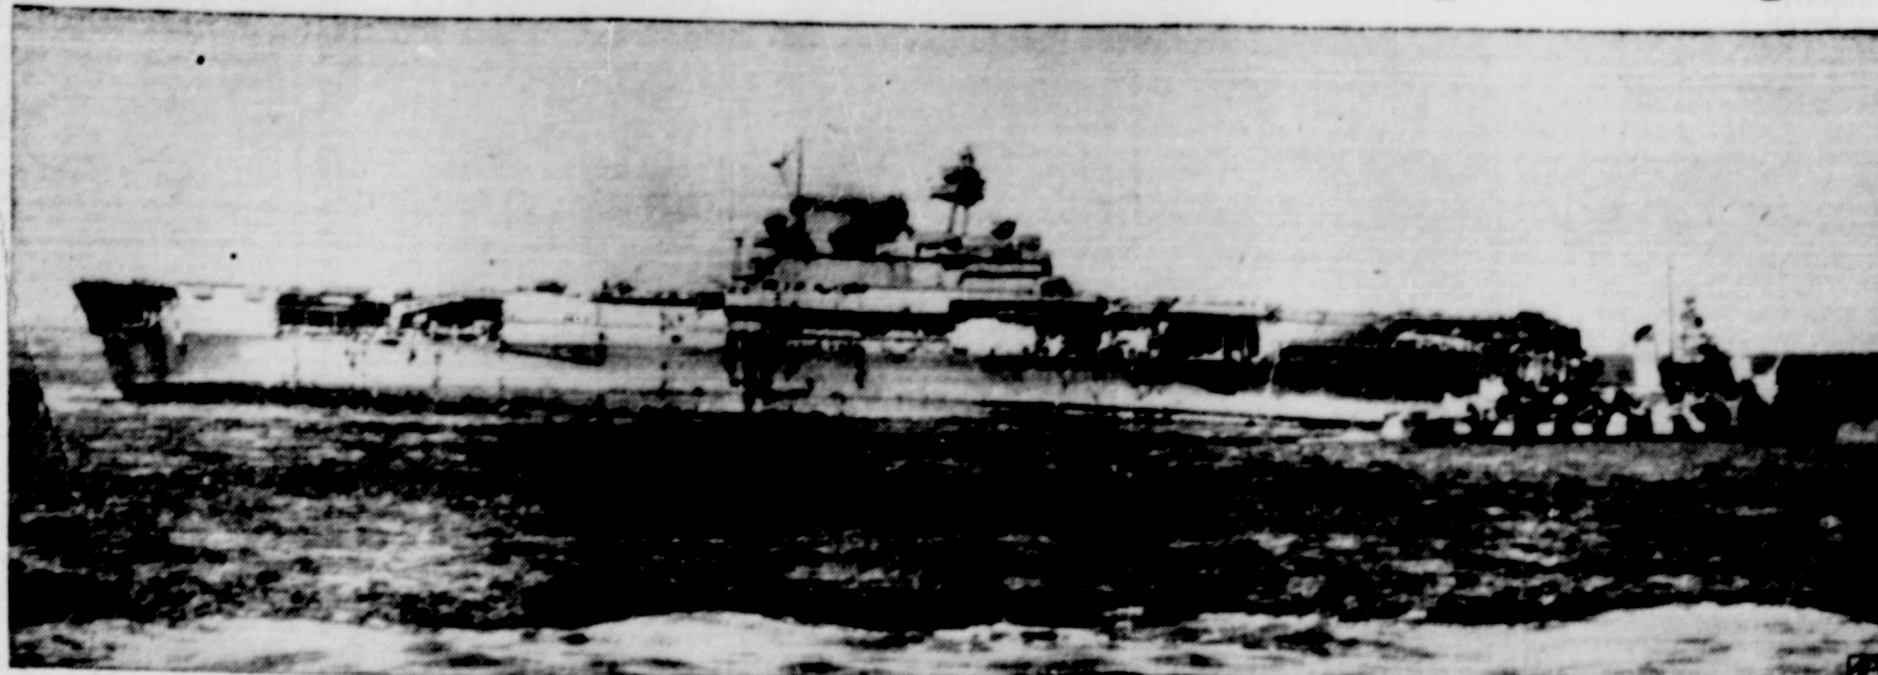

There's something typical of the big railroad man in the quiet way he told his wife about his new job. In a telephone conversation from Washington he said:

"Well, Lena, you've been wondering about what you were going to do about those tires on the car. I guess that's going to be my worry from now on."

Freshmen Are Eligible
Clinton, N. Y., Sept. 17 (AP)—Hamilton College has made freshmen eligible for varsity athletics for the duration. The faculty approved freshmen participation yesterday. Athletic Director Albert I. Prettyman said, in order to maintain a full athletic schedule for as many students as possible, all Hamilton opponents permit freshmen to play.

A section of "El Salvador" is called the "Balsam Coast" from a species of balsam tree that grows nowhere else in the world.

Scenes From Pacific as Yorktown Puts Up Last Fight

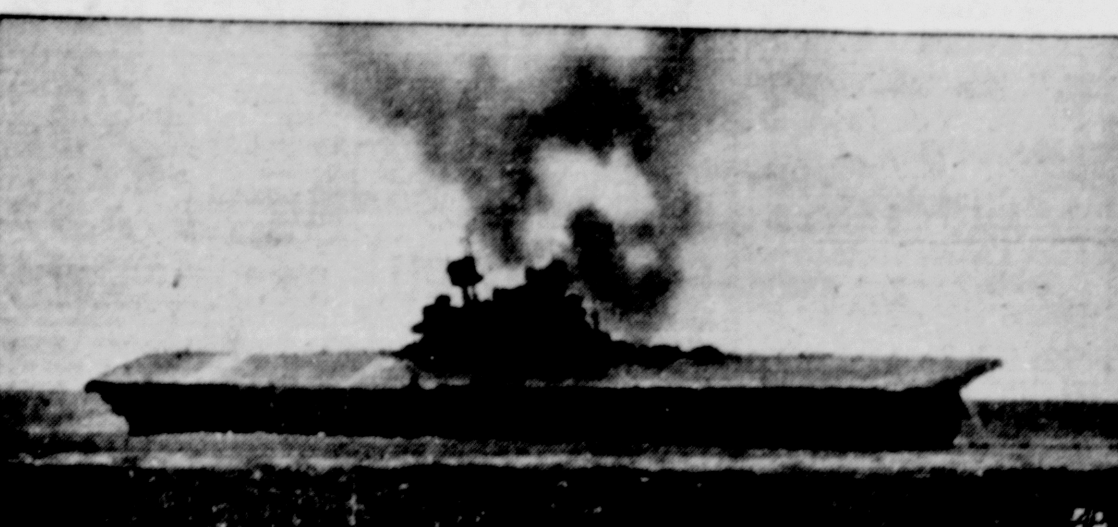

CREW ABANDONS STRICKEN AIRCRAFT CARRIER YORKTOWN

Crewmen of the crippled U. S. aircraft carrier Yorktown, which later went to the bottom of the Pacific, slide down the sides to small boats, which transferred them to rescue vessels, including the destroyer at the right. The Yorktown was damaged in the defeat of Japanese forces which attacked Midway Island.

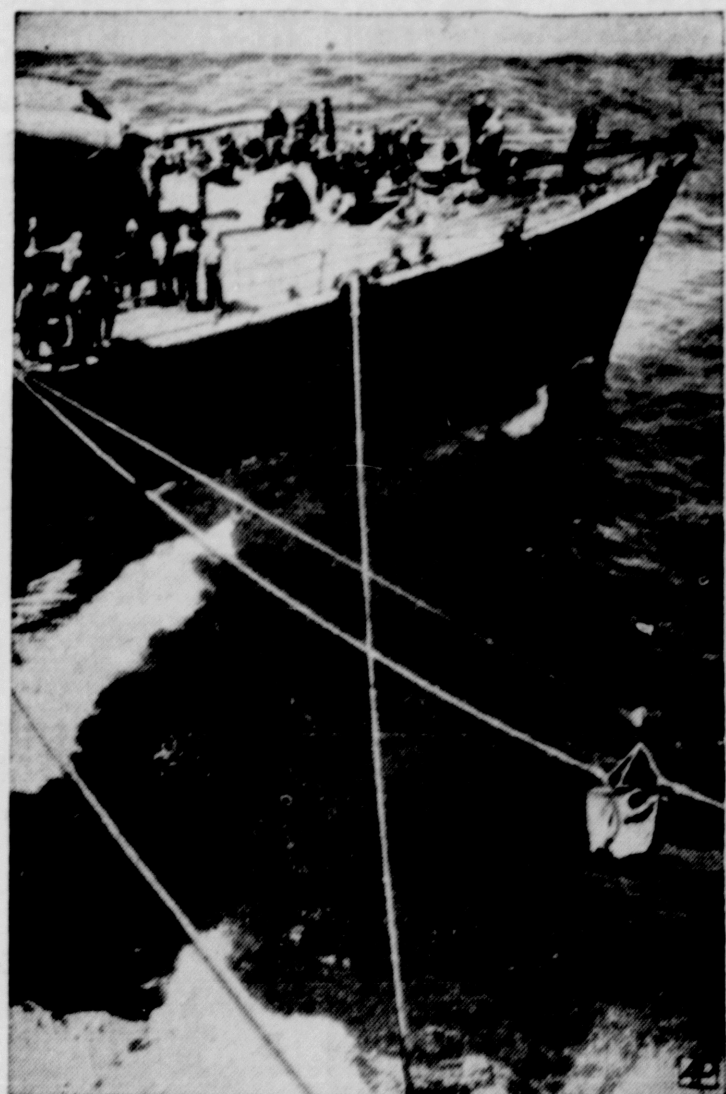

YORKTOWN LISTS AS RESCUE SHIP STANDS BY

This photo from the U. S. Navy shows the aircraft carrier Yorktown, crippled in the battle of Midway, is shown listing to port while an unidentified U. S. vessel stands by to give possible aid.

CRIPPLED CARRIER BURNS BEFORE SINKING

Listing, heavily, smoking from fires below, the U. S. aircraft carrier Yorktown, damaged in the battle of Midway, rides out the heavy bomb and torpedo plane attack made by the Japs June 4. Later Jap submarine torpedoes sent her to the bottom.

RESCUING INJURED YORKTOWN CREWMAN

In a breeches buoy an injured crewman from the crippled aircraft carrier Yorktown is transferred safely to a waiting vessel (background) a few hours before the Yorktown went to the bottom.

Pink Says Car Insurance Rates Should Decrease

New York, Sept. 17 (AP)—Reduction in automobile insurance rates as a result of gasoline rationing was urged yesterday by insurance commissioners or representatives of 12 states.

New York State Superintendent Louis H. Pink, spokesman for the conference, said it was the opinion of all that insurance companies should give "serious consideration" to rate reduction and

"should not delay unreasonably in taking some action."

The meeting was called by Insurance Commissioner John C. Blackall of Connecticut and included representatives of the New England states, New York, New Jersey, Pennsylvania, Maryland, Illinois and Ohio.

Special federal, state and local taxes on commercial vehicles totaled \$546,290,000 in the United States in 1941.

Women in Cuba are busy in defense work.

Apples Are Urged To Help Health

Recipes Are Listed for Each Meal of Day

Ithaca, N. Y. — Apples eaten in sufficient quantity make up the food essentials contained in more expensive foods, says the New York State College of Home Economics.

Many varieties of eating and cooking apples are grown in New York state. Those that are equally good for both eating and cooking are the Wealthy, McIntosh, Cortland and Northern Spy. These varieties also retain their flavor well throughout the winter, and are particularly useful for salads and fruit cups, says the college.

Apples may be served all three meals of the day. The following recipes are suggested: For breakfast apples may be served in the form of apple juice, applesauce, baked apples, apple rings broiled with bacon or sausage, apple muffins, apple pancake or apple omelet.

For lunch apples are best used in desserts. Besides apple pie, applesauce, and baked apple, other suggestions are: apple brown Betty, apple float, apple ice cream, apple pudding or cake, applesauce cake, apple upside-down gingerbread and hot gingerbread with mock whipped cream. To make egg whites until they are stiff, add 1/4 cup of powdered sugar while beating and then add 1/2 cups of grated apples and 1/2 cup of powdered sugar alternately as the beating continues.

Apples may also be served with the meat course as apple fritters, apple meat roll, apple stuffing for goose, duck, or pork, apple rings, fried apples, and sausages and apple rings.

Smarter Than Their Dads

Tulsa, Okla. (AP)—Shh! This is for parents only. Don't try to tell that youngster of yours how good you were in school. He probably is smarter than you were. Principal M. M. Black, comparing grades, says students at Central High School last semester got higher marks than the students of 1927-28. Of the 1941-42 students, 96.3 per cent received passing grades while only 94 per cent of the students of 15 years ago made passing marks.

Nurse Is Detained In Kidnap Attempt

Kathryn Batchelder, 23, Takes Pelham Child, 4, Asks \$30,000 Ransom

New York, Sept. 17 (AP)—A pretty 23-year-old nurse who lost her nerve was held in custody today by F.B.I. men who charged her with attempting to kidnap the four-year-old daughter of her wealthy employer and hold her for \$30,000 ransom.

P. E. Foxworth, assistant F.B.I. director, said that the nurse, Mrs. Kathryn Batchelder, a native of Fairlee, Vt., took Nancy Joyce, daughter of a broker living in suburban Pelham, from the Joyce home, early Tuesday and caught a train for Mount Vernon, where she had rented a room.

On the way, the F.B.I. said, the nurse sent a special delivery letter to the child's maternal grandmother, Mrs. Emily Flippen, of Dallas, Tex., who was visiting in the Joyce home. The F.B.I. said the letter read in part as follows:

"Nancy and I have been kidnapped. They say she will be safe if you do as they say. You are to get \$30,000 in five, ten and twenty dollar bills only. Put the \$30,000 in a shoe box and tell Mrs. Joyce to come along with the money to the New Rochelle station tonight at 10:30 p. m. x x x."

The letter was signed "Kathryn." Foxworth said, and was in the handwriting of the nursemaid. The F.B.I. was notified, but at 8:30 o'clock that night, Foxworth said the nurse telephoned the Joyce home announcing she and the child had been released by the kidnapers and were safe at the home of friends. A short time later the child reached home safely and F.B.I. men took Mrs. Batchelder into custody.

She confessed, the F.B.I. said, that she alone was responsible for the extortion attempt.

The father, Albert Joyce, a Cornell graduate, heads a Broadway brokerage firm bearing his name. Foxworth said she would be charged with attempted extortion.

Ulster County Goats Win At Sullivan County Fair

Kenneth K. Clark of Tillson, and the Minerva Herd of White Port, had entered their fine Nubian Goats at the Grahamsville Fair, and all won first premiums. All these animals are registered stock which proves the superiority of the pure bred goats as far outstanding.

Mr. Clark's senior doe Alpha, is of the same origin and related to some of the Minerva stock, and according to the judges, and some of the goat experts opinion, are the best they had seen anywhere.

First premium was also awarded to Mr. Clark's Rock Alpine Doe. Both these breeders were greatly elated over the gigantic enthusiasm their fine animals caused at both the Grahamsville and the Ulster county fairs, and gives them more encouragement for their efforts.

A 35,000-ton battleship requires 150,000 pounds of rubber—enough to equip 2,000 passenger automobiles complete with spare tires.

Bergan Decision Reversed on Ballot Bid of Communists

Appellate Division Gives 3 to 2 Verdict Altering Ruling Until Charges Are Settled

Albany, N. Y., Sept. 17 (AP)—Communist candidates will not be barred from the state's November 3 election ballot pending outcome of American Legion court action testing validity of their nominating petition.

The appellate division, by 3-2 decision yesterday, reversed a supreme court order keeping the party off the ballot until disposition of Legion charges of Communist "fraud, misrepresentation and concealment" in obtaining the required minimum 50 petition signatures in each county.

The Legion and Communists now await resumption Tuesday of the main action before Supreme Court Justice Francis Bergan at Hudson.

The Legion, by Bergan's order at the first hearing last Monday, must furnish Communist attorneys by Saturday with specific instances of signatures obtained fraudulently. Evidence of their validity will be presented Tuesday.

The Legion obtained from Justice Bergan last week an order restraining Secretary of State Michael F. Walsh from certifying the Communists for the ballot until settlement of the action. When Justice Bergan denied on Monday a Communist motion to vacate the order, they appealed to the appellate division, second highest state tribunal.

Presiding Justice James P. Hill and Justices C. J. Heffernan and John C. Crapper voted to vacate the order "on the law and the facts." Justices Sydney F. Foster and Gilbert V. Schenck dissented. Joseph Brodsky, Communist attorney, argued that the order, in effect, granted the Legion the objective of their main suit without requiring proof of their claim.

The order, he added, was being used by Legionnaires "as a weapon to convince the public they have already won a victory and to cast

Japan Might Be Trying To Fool Allies, Yet She Might Attack India, Reds

Yorktown Bore Big Part of Pounding Given at Midway

Rescued Crew Members Tell of Heroism of Captain in Saving Mess Attendant

San Francisco, Sept. 17 (AP)—The U. S. S. Yorktown, sent out hastily repaired merely to trail other plane carriers for the "clean up" job, fought to death bearing the brunt of the Midway sea-air battle.

The information was disclosed today in the story of the gallant ship's last stand, as constructed by the 12th naval district headquarters here from accounts of rescued crew members.

Then, the survivors recounted, she was wounded anew in the first hours of the Midway engagement June 4 by another bomb crashing through her deck. Two hours later, the Jap torpedo planes struck. The crew abandoned her then, but she remained afloat until June 7, until after a Jap submarine torpedo hit her and two others blew up the destroyer Haman, secured alongside for salvage attempts. The explosion of the Haman's depth charges added to the destruction.

Fire Controlman Paul Blane Rehlander of Laporte, Ind., told this story:

"I heard that one of the planes coming in low," Rehlander continued, "flew past a marine up forward. The plane was all shot to pieces and the pilot shook his fist at the marine, so the marine drew a bead on him with a rifle and shot him down."

"It might be just a yarn, but I don't know. The marines are pretty handy with those rifles."

50-In-1 Envelopes
London (AP)—Every envelope used in the General Post Office in London has to do service at least once again for re-addressing or inter-office messages. Large envelopes have had as many as 50 different addresses in the "save paper" campaign.

Perils Would Be Many
The perils Jap would risk in going after Siberia or India would be many. The most vital consideration is that in either case she would be seriously weakening her forces of all categories in the Southwest Pacific, thereby making Uncle Sam's task immeasurably easier.

This would be particularly true as regards India. Overland invasion through Burma and across the towering mountain ranges isn't feasible on a big scale. The Japs would have to employ a great waterborne expedition. This would mean that at a time when they need every transport, warship and airplane for use in the Pacific warfare, they would have to make a heavy call on these already badly reduced arms.

In the case of Russia, the Japanese would lay Tokyo and other great cities open to heavy aerial bombardment the moment the war began. The Reds have a strong air fleet at neighboring Vladivostok, and with the new war planes at other Siberian stations.

Russian territory would become available for American air bases. The Soviet submarine fleet at Vladivostok, estimated at 100 boats, would start raiding Japanese waters. And of course a failure to smash Russia would mean that the Japs had cut loose an avalanche of power which, added to the American and other allied strength, must crush the island empire. She most certainly would be driven into the sea from Manchuria, Korea and all her other Chinese conquests.

Naturally, should Japan attack Russia it would be with the hope that the Muscovites have been so weakened in their long and bloody conflict with Hitler that the added weight of an assault in Siberia would bring about a quick collapse of the Soviet. The Japs also would aim at acquiring military security by conquering Vladivostok and other bases which now are a potential menace. There further is the not unimportant matter of gaining rich new territories.

A successful conquest of India would be calculated to enable the Nazis and the Japanese to join forces in the Middle East. India itself would be a prize beyond price, and one which Nippon long has coveted.

Whether the Japs will regard the prizes as worth the risk remains to be seen. In any event, if they should undertake any such venture, I believe it will be in the nature of a defensive move rather than because of greed for new territory.

Lower Speed Limit

Vermont's Governor Will believes motorists in his state do not have to be legislated into patriotism. He reached this decision after studying reports from the Vermont Vehicle Department showing almost complete voluntary compliance with the Chief Executive's request for a 40-mile per hour speed limit to conserve rubber.

Only 26 cases of smallpox were reported in Canada in 1941, all but one appearing in the province of Saskatchewan.

El Salvador wrote emancipation into its constitution 40 years before the United States freed its slaves.

Du Pont Offers Rubber Idea Without Adding Natural Form

By HOWARD W. BLAKESLEE (Wide World Science Editor)

New York, Sept. 17—One of America's big tire worries, the need of natural rubber in all synthetic tires, has been eased, and possibly solved, by two chemical discoveries.

"First, military tires, which means the strongest possible kind of tire, are being made out of the du Pont Company's neoprene synthetic rubber, without adding a drop of natural rubber, not even in the bead of the tire. So far as known, this is the first tire in the world to be made completely of synthetic."

The other discovery, from the American Cyanamid and Chemical Corporation, is that, where natural rubber has to be added to make a synthetic tire, guayule, the Mexican and American bush rubber takes only half as much for the job as the hevea tree, which up to now is the source of all natural rubber in use.

So much natural rubber was required with the synthetic, up to 40 per cent of all the rubber in a tire, that this drain might have broken down the American rubber supply, even with success of the synthetic program.

The importance of the du Pont discovery was indirectly emphasized by the Baruch committee report when it stated that "Neoprene is the one synthetic rubber which has been shown to be the full equivalent in quality of natural rubber for combat and heavy duty tires, either by itself or in combination with Buna S."

Buna S is the Butadiene rubber which is the major part of the

synthetic program. How much natural rubber will have to be added finally to this synthetic to make good military tires depends on the miracle-working abilities of American chemists. Until this year, du Pont's Neoprene required addition of natural rubber. But in eight months of war the du Pont chemists not only have solved the problem but have put the tires into production at Buffalo.

Some time ago Buna S, the Butadiene rubber, was actually taking more than 50 per cent natural rubber in some tires made for the government. Not that much is needed now, and chemists hope to get rid of need for any natural rubber.

Such is the speed of war science that the Neoprene discovery, one of the major achievements of the entire history of synthetic rubber, went by without even an announcement. From abroad only the Russians are rumored to have a similar achievement of synthetic tires needing no natural rubber. The Russian report has not been confirmed.

But if true, the Russian discovery is vital to America, because their synthetic rubber is the Butadiene, Buna S type.

Guayule does the job with 20 per cent added to Buna rubber. For this reason cyanamid is doubling the capacity of its Mexican guayule plant at Cie Huleria de Parras in the state of Coahuila.

Will Tour Country Plans Are Started For Charity Ball

BEMAN LORD

Beman Lord, son of Mr. and Mrs. Frank Lord of Woodstock has been signed to play the juvenile lead in "Doodle Dandy of the USA" which Junior Programs, Inc., will send on tour throughout the country this fall and winter. He was recommended for the part by Robert Elwyn, director of the Woodstock Playhouse.

Mr. Lord was graduated from Kingston High School in June. He played the lead as the high school boy in "June Mad" this year's senior class production. He also gave the advice to the juniors in the Class Day exercises.

"Doodle Dandy of the USA" is expected to open in New York next month followed by a 35 week tour of the eastern, southern and middle western states. Mr. Lord joined the company Monday at Lee Mass., where it will receive a week of dancing instruction under Ted Shawn in preparation for rehearsals in New York. Dorothy L. McFadden is president and founder of Junior Programs, Inc. Gladys Swarthout is chairman and Katherine Cornell is honorary chairman.

Lieut. W. Ralston Dennis Weds

Miss Lillie Northrop Stearns daughter of Mr. and Mrs. Emory Ward Stearns of Garden City, L. I., was married to Lieutenant Wilbur Ralston Dennis, United States Army, son of Mr. and Mrs. Nelson C. Dennis of New York City, Tuesday, September 15. The ceremony was performed in Columbia, S. C., and a reception was held at the Columbia Hotel.

The bride, who was given in marriage by her father, was attended by Mrs. William Dwight Stearns of Hempstead, L. I., as matron of honor. Mr. Stearns, brother of the bride, was best man.

Lieutenant Dennis attended Lawrenceville School and Columbia University and is a member of Psi Upsilon. Prior to enlisting in the army he was salesman for the Phillip Morris Co., in this area and was associated with various organizations in the city.

First Year Students at New Paltz State Teachers' College

MISS JANICE DENIKE

MISS CAROLYN MOREHOUSE

MISS MINERVA SCHWARTZ

MISS SHIRLEY PHILLIPS

MISS CAROLINE HUMMEL

MISS TILLIE GARBEL

Photos by Pennington Studio

Among the students from Kingston who enrolled at the New Paltz State Teachers' College this week are several graduates of this year's Kingston High School class. Registration was Tuesday. Shown in the pictures are Miss Janice Denike, daughter of Mr. and Mrs. William Denike, of 125 Emerson street; Miss Carolyn Morehouse, daughter of Mr. and Mrs. Daniel Morehouse of the Saenger road; Miss Minerva Schwartz, daughter of Mrs. Luella Schwartz, and an honor graduate; Miss Shirley Phillips, also an honor graduate, daughter of Mrs. Edith Phillips of 131 Fair street; Miss Caroline Hummel, an honor graduate, daughter of Mr. and Mrs. J. A. Hummel of 24 Liberty street; and Miss Tillie Garber, daughter of Mr. and Mrs. Abraham Garber of 455 Washington avenue.

Also entering the Teachers' College this week are Miss Kathryn Phinney, honor graduate, daughter of Mr. and Mrs. Francis W. Phinney, of 48 Hinsdale street; Miss Ruth Herdman of 35 Snyder avenue; Miss Muriel Kline, daughter of Mr. and Mrs. Julius Kline of 100 McEntee street.

Club Notices

Baptist Circle No. 1

Circle No. 1 of the First Baptist Church will meet Friday afternoon at 2 p. m. in the church assembly hall.

World Friendship Club Meets

The first meeting of the Young Women's World Club of Trinity Methodist Church was held Tuesday evening at the home of Miss Ruth Tongue, Presidents Place. Plans were made for the coming year and arrangements completed for a fun party to be held tomorrow evening at the church. This is being planned for the younger members of the church and a junior choir will be organized.

Officers for the club this year are Miss Adiska Conro, president; Mrs. Edna Jones, vice-president; Mrs. Andrew Griffin, secretary and Miss Jane Mauterstock, treasurer.

Trinity Methodist Junior Party

A Junior Party for the boys and girls of Trinity Methodist Church is being held Friday evening at 6:45 o'clock. This is for boys and girls from seven to 14 years of age who are interested in joining a Junior Choir. Fred Fatum has been secured as Junior Choir Director.

American Legion Auxiliary

Miss Charlotte Cooper will be the guest speaker at the regular meeting of the American Legion Auxiliary, at the Legion rooms, Friday evening, September 18. Miss Cooper, a high school junior, was chosen by the Auxiliary because of her outstanding work to be representative at the session of Girls State held at Russell Sage College this summer. The Syracuse delegates will also give

their reports at this time and election of officers for the coming year will be held.

Suppers-Food Sales

Food Sale

The Ladies' Aid Society of the First Reformed Church will hold a food sale at The Wonderly Store, Friday, September 18. The ladies in charge are Mrs. Charles Palmer, Mrs. Herbert Greenland, Mrs. A. T. S. Clarke and Mrs. Benson Miller. Contributors will please have food at the store by 1:30 p. m.

NEW HURLEY

New Hurley, Sept. 16—Miss Ruth Hubbard, teacher of the New Hurley school, is boarding at the home of Mr. and Mrs. Halsey Sherwood.

Mrs. Myron Anderson is ill at her home in this place.

Miss Delia Brown, who has been spending the summer with her parents, Mr. and Mrs. Jesse Brown, has returned to Long Island where she is teaching.

Reita Dolan of Albany spent the week-end with her mother and grandmother, Mrs. Myra Dolan and Mrs. Iva Low.

Mrs. Edna DuBois was a caller on relatives in New Paltz one day last week.

The September meeting of the Young Women's Club was held at the home of Mrs. William Powell at St. Elmo Saturday afternoon. Mrs. Powell acted as assistant hostess. The president, Mrs. Alfred Wager, presided. It was decided at this meeting to elect officers to take charge until March, and then again to elect officers for a year as the church year be-

Good Taste Today

By Emily Post

(Author of "Etiquette," "The Personality of a House," "The Blue Book of Social Usage," etc.)

PRESENTS UNIQUE ANGLE ON TITLED "JUNIOR" AND "3rd"

Among the countless questions that have been asked about the correct use of the titles Junior and 3rd, I can't remember any like this one sent me by a young mother, whose husband has just been killed in the war. Her baby had been named for his father, who was himself a junior. His wife asks whether the baby should now be known as junior or whether he may properly keep the suffix 3rd. Grandfather is living; so is grandmother.

As I have said, this question has an almost unique angle that seems to require an adjustment of the correct rule by which the baby should be "Junior." It seems to me, that the fact that his mother is herself Mrs. James Johnson, Jr. and that she has no other choice, the only way to avoid future confusion is to let the baby continue to be called James Johnson 3rd even though his legal name be junior.

When There is a Stepmother

Dear Mrs. Post: We are having a little trouble deciding how to word correctly the announcement of our engagement in the newspapers. My fiancée has a stepmother of whom he is very fond, and we would not want to hurt her feelings. However, mother thinks it should be noted that he is the son of Mr. . . . and the late Mrs. Jones. But this would rather suggest, I think, that there is no present Mrs. Jones. How would you suggest it be handled?

Answer: Such announcements seldom, if ever, include the wife of Mr. Jones, when she is not the mother of the bridegroom. The only way it would be possible to include her would be to say "Mr. Jones and his second wife, who was Miss Mary Mopes are giving a dinner (or whatever else) on such an evening." But it is really unnecessary to mention her. In other words, this particular mention of the parent other than the one who makes the announcement gives no information as to whether he has remarried.

Service Man As House Guest

Dear Mrs. Post: Mother and father do not think that I should invite a man friend to visit us. This man is in the service, and he hasn't any money to spare. We are just good friends and this is why mother thinks it wrong. Is it true that our friendship will appear to be serious by the fact that this man stays in our house? Don't people do more for the men in the service anyway, and are they not slower to criticize?

Answer: Naturally, you would ask one whom you know well rather than a stranger, and people are all asking strangers when they can. Therefore, having a soldier stay a few days at your parents' house is not exceptional. So many requests have been made for copies of Mrs. Post's article on details concerning training camps (behavior of visitors and presents for the men), that it has been printed as a leaflet and will be sent to anyone who sends me a self-addressed three-cent stamped envelope to Mrs. Post, in care of The Kingston Daily Freeman, Post Office Box 75, Station O, New York, N. Y. Leaflets cannot be mailed unless self-addressed envelope bears correct amount of postage. (Released by the Bell Syndicate, Inc.)

The first airplane flight by Orville Wright at Kitty Hawk, N. C., lasted only 12 seconds.

Eighty per cent of China's population is engaged in raising farm products and domestic animals.

Dried eggs are rationed in England at the rate of one package a month for each family of three.

Bomb the Japs with Junk!

The word "Commando" refers only to military units and not to the individual soldier.

Helium was discovered in the sun in 1868.

Fishbein Says Venereals Will Endanger Others

Chicago, Sept. 17 (AP)—Wives and mothers of service men were assured today by Dr. Morris Fishbein of the American Medical Association that proposed induction of some men with venereal diseases would not jeopardize the health of others.

Major General Lewis B. Hershey, National Selective Service director, announced Tuesday the army has agreed to take some men with venereal diseases, starting in October. Of the proposal, Dr. Fishbein, editor of the association's journal, said:

"The induction of men with curable venereal diseases cannot possibly be hazardous to the health of those in the army since such men are assigned promptly for treatment and are under control."

"Certainly the presence of recently acquired syphilis or gonorrhea should not enable a selectee to avoid military service. Modern scientific diagnosis and treatment, including new drugs and new methods, applied to rehabilitation of such infected men could supply the army promptly with from 80,000 to 100,000 additional soldiers."

"Already many of the best known specialists in the field of venereal diseases have been commissioned in the army and navy medical departments and in that of the air force. These officers consultants in the Committee on Venereal Diseases of the Division of Medical Sciences of the National Research Council will assure to those infected the best and the latest that scientific medicine has established as useful in such cases."

Roosevelt Opposes Move to Alter Farm Parity Schedules

(Continued from Page One)

to account, thus increasing the level to which farm prices might rise before ceilings came into operation.

"I should like to make clear my unalterable opposition to any re-computation of parity at this time," the President wrote. "In my message of September 7 I stated, in computing parity, we should continue to use the computations of the Bureau of Agricultural Economics made under the law as it stands today. This will continue to be my policy."

Senate Republicans pledged co-operation today with the administration in efforts to obtain speedy congressional approval of legislation authorizing and directing President Roosevelt to stabilize prices and wages and salaries.

Indicating that the minority group would have several amendments to offer to the pending anti-inflation bill, Republican Leader McNary, of Oregon, and the group would meet Saturday to draft some proposals.

At a preliminary conference today, McNary said, the minority group.

Resolved that the Republican conference recognizes the present situation with respect to living costs, that it believes action is necessary, and will cooperate in an effort to work out a wise solution of the problem presented to the Senate and the country.

Text of Letter

Following is the text of President Roosevelt's letter to chairmen of congressional banking committees expressing "unalterable opposition" to proposed attempts in Congress to change the basis for computing farm parity:

"My attention has been drawn to proposals to revise the parity formula in connection with the legislation I requested on September 7. I understand that it is proposed to include certain allowance for farm labor in the index of prices which farmers pay that is used in computing parity prices.

I should like to make clear my unalterable opposition to any re-computation of parity at this time. In my message of September 7 I stated, 'In computing parity, we should continue to use the computations of the Bureau of Agricultural Economics made under the law as it stands today.' This will continue to be my policy.

Earlier in my message I stated, 'after all, parity is by its very definition, a fair relationship between the prices of the things farmers sell and the things they buy. Calculations of parity must include all costs of production including the cost of labor.' By that I meant what the language states—that parity is fair and it is fair because it now includes the labor cost incorporated in the prices of the things which farmers buy. It is this which brings farmers into a fair relationship with other groups. This is the purpose of parity. This is the present formula does.

The parity principles for which this administration has stood since 1933 was a good standard for peace time—it is a good standard for war. To recalculate parity now and to offer to the public 100 per cent of a new and higher parity would be to offer stabilization, yet destroy the possibility of achieving it.

Wild Plants in U. S. Yield Food

Forests and Fields Abound in Varieties Used by Indians Years Ago

NEW YORK—There is no reason why hunters who get lost in the forest wilds, or even deserts, of the United States should starve to death—provided they, or even one of a group, are equipped with a working knowledge of botany. For there are no fewer than 3,500 different species of plants and grasses used by the Indians years ago, with more than half of this number of edible variety.

Vegetables, grains, fruits and seasonings are to be found in the wild and were obtained by the North American natives, writes Marian A. and G. L. Wittebroek in the Journal of the New York Botanical Garden. Dependent to a large extent on the plants that could be gathered, the Indian found many to satisfy his palate, and those same plants are growing in North America today.

A number of trees and shrubs provided nuts; many herbaceous plants gave greens and other types of vegetables; fruits came from innumerable sources, and many bulbs and tubers which are passed unnoticed today provided tasty vegetables, seasonings or nourishing ground meat. In the absence of wheat the Indians used the seed of many other grass plants for flour.

Acorns Were Popular

Perhaps the most important food plant was the oak. The trees with the sweetest acorns are the California live oak and the basket or cow oak of the Atlantic states, but any acorn may be used for food if the tannin is removed. Indians ate the nuts of more than 40 species of trees and shrubs, as well as the nut-like seed of the water chinkapin, or American locust.

Fruits are another source of food in the wilds. The Indians enjoyed fresh berries and berrylike fruits from at least 273 species of plants that occur in the United States. Many species of flowers, too, were consumed. A number are grown in vegetable gardens today. They are all of European origin; cauliflower, broccoli and artichoke, of which we eat the bracts of the flower in the bud stage. The Indians, however,

Food Save Your Sugar—Have Your Cake

MRS. ALEXANDER GEORGE
Wide World Food Editor

There is no need to rule out the traditional Bake Day in your household just because you are running a little low on sugar. You can turn out some very good home baked specialties by using substitute sweets or small amounts of sugar.

Don't forget, however, that it is especially important to follow recipe directions closely when using most of the alternate sweeteners.

Chocolate Covered Sugarless Cake

2 1/4 cups sifted cake flour
2 1/2 teaspoons double-acting baking powder
1/4 teaspoon salt
1/2 cup butter or other shortening
2 teaspoons grated orange rind
1 cup light corn syrup
2 eggs, unbeaten
1/2 cup milk
1 1/2 teaspoons vanilla

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream shortening with orange rind, add syrup gradually, beating well after each addition. Add 1/2 of flour and beat until smooth and well blended. Add eggs, one at a time, beating well after each. Add remaining flour in halves, beating after each addition. Add vanilla. Bake in two greased 8-inch layer pans in moderate oven (375 degrees F.) 30 minutes, or until done. Cover with Chocolate Chip Frosting.

Chocolate Chip Frosting

Place layers or baking sheet, having one layer upside down. Cover tops with semi-sweet chocolate chips, using 2 packages. Heat in moderate oven (350 degrees F.) 6 minutes, or until chips are just softened. (Cake may be frosted while warm. Heat only 3 minutes.) Remove from oven. Spread softened chips over bottom layer, letting chocolate run down on sides. Arrange top layer and spread as before. Then spread sides evenly.

PINEAPPLE COFFEE CAKE

Mix together 2 cups flour, 4 teaspoons baking powder, 1/2 teaspoon nutmeg, 2/3 teaspoon salt

and 1 tablespoon sugar. Add 5 tablespoons fat and mix until crumbly. Add egg beaten into a cup of milk and pour into greased, shallow baking pan. Cover with topping made like this: Mix together 4 tablespoons soft butter, 1/2 cup dark brown sugar, 1/2 cup drained crushed pineapple, 4 tablespoons honey and 1/2 teaspoon cinnamon. Quickly spread over soft dough and bake 25 minutes in moderate oven. Serve warm with butter.

DIXIE DROPS

Mix 2/3 cup fat with 1/4 cup dark brown or white sugar. Add 1 egg, 1/2 cup molasses, 1 teaspoon salt, 1 teaspoon baking powder, 1/2 teaspoon cloves or

macis, 3 cups flour, 1 teaspoon soda, 1/2 teaspoon baking powder, 2/3 cup chopped raisins, currants or washed dried prunes and 1/2 cup sour milk or buttermilk. Chill the dough and then drop portions from spoon onto greased baking sheets and bake 12 minutes in a moderate oven. These soft cookies will keep

moist a week if stored in covered jar.

ORANGE MARMALADE puts the sweetness in this appetizing loaf—a quick bread for any meal. Mix together 3 cups flour, 1 teaspoon salt, 3 teaspoons baking powder, 2 eggs, beaten, 1/2 cup orange juice and 1/2 cup milk. Blend and add 1/2 cup broken nuts or chopped dried prunes, raisins or dates, and 2 tablespoons fat, melted. Pour into greased loaf pan and bake an hour in moderate oven.

Youth Is Charged With Many Thefts In Two Counties

A 15-year-old Newburgh boy, LeRoy Davis of 555 South street, has made a house burglarly record during the past couple of months worthy of a better cause. If the various charges against him are sustained.

It is charged that Davis, who was picked up while at junior high school in Newburgh Wednesday afternoon, is responsible for at least ten house burglaries in Orange county and four in Ulster county. He was taken into custody by Trooper A. C. Fehse of the B.C.I. Troop K and held for Orange county authorities. Later he will answer for the Ulster county charges.

Trooper Lynn Baker of the B.C.I., who with Trooper John Metzger has been investigating four burglaries at West Marlborough in the early part of September, said that \$140 in cash had been taken from these houses. In one home that of Joseph DalVecchia, \$70 was stolen.

In Orange county houses were entered in the town of Newburgh, around Orange Lake, Stewart Field, and other points. In addition to money, wrist watches, vanity cases and other articles of jewelry were missed.

Trooper Baker said that most of the jewelry had been recovered but the money had been spent. A week's carnival in Newburgh furnished an outlet for a large share of the money secured.

It is stated that Davis came up to Marlborough in July and for a time was employed at picking currants. He also picked apples for a short time recently.

Most of the houses entered were those of fruit farmers, after it was discovered that the occupants were not at home.

Gets Promotion

SGT. ROBERT EARL

Robert Earl, son of Mrs. Geraldine Frazier of 38 Prince street, who is stationed at Fort Lewis, Washington, received his promotion from corporal to staff sergeant September 7. Sergeant Earl left Kingston with the 156th Field Artillery in September, 1940. He has since been transferred to a Tank Destroyer Battalion, and is expected to soon to be transferred to a training center to help train new recruits.

Will Establish Price

Washington, Sept. 17 (AP)—The Office of Price Administration will hold a meeting in Chicago next Wednesday to discuss a proposed price regulation establishing maximum rental rates for all types of commercial motor vehicles.

An old automobile tire may provide 18 pounds of rubber.

Women in Finland are using their own hair for darning stockings.

One must have a government permit to sell a motor vehicle here.

Sixth Ward Gives Quantity of Scrap In Current Drive

Three city trucks with the assistance of a number of school children and Boy Scouts collected a large amount of salvaged scrap in the Sixth ward in the fifth day of the Kingston salvage drive yesterday afternoon. The collection in that ward continued today as well as in other parts of the city.

Alderman Paul Black announced last night that the trucks had picked up 1,800 pounds of iron, 1,700 pounds of tin, 1,200 pounds of paper, 260 pounds of rags, 102 pounds of rubber, a total of more than 2 1/2 tons of scrap. Alderman Black said the collection was not completed and would continue today.

Telephone calls from householders were still received at the Y. M. C. A. Wednesday and are receiving attention. The Lions Club is also busy collecting heavy scrap in a truck it has engaged.

It is expected that the entire city will have been thoroughly canvassed and that the drive will end this week.

Marine Has Alleged Iodine Experience Near Lake Hill

Alleged to have swallowed the contents of a bottle of iodine, after he had been kept over night at a Bearsville home, for which he was treated by Dr. Hans J. Cohn of Woodstock, Hazen E. Lord, 19, of Nassau, was taken into custody this morning by Corporal Arthur A. Reilly and Trooper Edgar Crosswell of the B. C. I. He was brought to the Ulster county jail, where he was held for army authorities, it being charged that he is absent without leave from the Marine Corps Base at Quantico, Va.

Lord secured a ride at Newburgh last night with some people driving to Bearsville and who kept him over night. He went on his way this morning, but later was found lying alongside the road near Cooper's Lake. He was taken to Dr. Cohn's office for treatment and the troopers notified. They found the empty bottle, which had contained iodine, near where Lord had been lying.

News of Interest to Fraternal Organizations

Ladies' Auxiliary, A. O. H., Division 5, will meet tonight, 8 p. m. at the Knights of Columbus Hall. Mrs. Frank Reis will be hostess.

Blood for Transfusions

PHILADELPHIA, Pa. — Edward ("Spiky") Howard, a retired strong man, is doing a vastly different act these days. Howard can still break chains across his chest, bend steel spikes into horseshoes with his bare hands and tow a 10-ton truck with his teeth. But now, at 48, he devotes most of his energy to giving blood transfusions. Hardly a day passes that he isn't called on.

Army Trucks to Help

Washington, Sept. 17 (AP)—Army trucks and personnel will aid in the National Scrap Metal Drive, Secretary of War Stimson, making this known today, added, however, that the assistance would be limited to communities near army posts and to times when collection of scrap would not interfere with normal military duties.

County 4-H Girl Named Alternate At Upstate Fair

Marion Werner, an Ulster County 4-H Club member, has been chosen as state alternate in the National 4-H Club clothing achievement contest conducted at the Junior State Fair at Cortland.

Miss Elizabeth Lee Jensen of Albany county is the winner in this contest and will receive a trip to Chicago.

Marion is a member of the Mt. Marion Homemaking Club which is led by Mrs. George Gillison. Since she began club work in 1934, Marion has been very active in clothing work. Most of the clothes which Marion has had since this time were made by herself. This year she has kept stride with the times and has done a great deal in the conservation of her own clothing. In the county style revue, Marion modeled a dress which she had made from an "out-of-date" linen dress. In her exhibit at the Junior State Fair were: a green striped play suit; a blue party dress; her remodeled linen dress; a party slip; cotton pajamas; a hand-knitted sweater and hat; a white dimity blouse; a pink quilted bed-jacket; pink quilted bed-room slippers; a blue silk dress; a printed apron; mended articles (showing darning, mended tears, etc.); hand-crochet doilies; tatting on handkerchiefs; and articles for her room including chair covers, dressing table curtain and bed-spread sample.

Also included with the exhibit was a record book which she entitled "Nine Stitches, Plus." In this book was included her family budget for clothing; her general wardrobe; samples of different construction processes; different types of threads and needles for different materials; samples of darning and mending; sewing she has done for others; sewing and knitting which she has done for the Red Cross; costumes and designing; and activities she had participated in for defense.

Marion has attended 4-H Club camp, 4-H Club congress at Ithaca, exhibited every year at the county fair; and has been news reporter, secretary, song leader, vice president, president and assistant project leader of her club. She has also exhibited and won awards at the State Fair on her clothing work, both in construction and styling.

In 1941 Marion represented Ulster county in the district demonstration events with a room improvement demonstration on which she was awarded a blue ribbon. This year she gave a county demonstration on "Blocking Hats."

Marion is 18 and has completed nine years of club work. She graduated from the Saugerties High School this past June and

Army Wife Saves A Ship

London (AP)—Credit for saving a ship at sea goes to Mrs. Brenda Tavinor, 19-year-old wife of an Army radio operator. She was helping her husband study his signal code by listening to the radio with him. She heard an S.O.S., notified authorities and the vessel was saved.

Attracts Torpedoes

Hull, England (AP)—The Germans haven't made a torpedo yet with Thomas Samuelson's name on it although they have fired plenty at him. The 63-year-old merchant seaman has been torpedoed eight times, three times in this war and five in the last.

is at present working in a defense plant in Poughkeepsie.

In Marion's exhibit material was the following paragraph: "Somehow I feel that if I had not been able to belong to a 4-H Club, and particularly one with leaders like Mrs. Dederick and Mrs. Gillison, I would not have been able to do all these things. So much of it is really 4-H Club work. Producing, preserving, and preparing food; making clothing, and other practical experiences in homemaking have prepared me for many tasks important in peacetime and indispensable in wartime. And as President Roosevelt stated, our 4-H pledge embodies the obligation which rests upon every club member. I repeat it, study it, and make it part of my very being. I trust that the heads, hearts, hands and health of all of us are truly dedicated to our country, which needs us now as never before."

Marion will receive a gold medal of honor given by the spool cotton company which sponsored the national clothing achievement contest.

Brooklyn Layout Grows Tougher as Season Draws to Finish; Camilli Hits Two

(By The Associated Press)

Ferdinand the Flagger Filbert popped out of his hole today, right smack into the National League pennant party, and threw such a scare into the folks in Brooklyn they all but leaped over the Garden wall.

Ferdinand the Filbert, in case you've forgotten him, is the little guy with an adding machine for a head and a percentage table for a heart, and when he starts counting over you—well, pal, it may not be deadly, but it's no vitamin tablet.

And the way Ferdie has figured out right now what will win the St. Louis Cardinals two games in front of the Bums and moving right along, the layouts look tougher for the daffiness boys than the stonks they used to squawk about when they were doing their spring training stuff in Havana.

Naturally you'll point out that the Brooklyn boys broke out of their hitting slump yesterday like a dimpled dower trying to get into a debutante's size 12. They named loose a 13-hit bombardment that won the Seabie Pirates against 10 to 3 in a game marked by a brawl in the stands among some fans, a couple of ushers and Dixie Walker and Mickey Owen. No one was "hit."

But the Cards howled over Boston's not-so-Browns 4 to 2 at the same time and are still in these winning.

As Ferdie sees it

And those statistics caused Ferdinand to point out that if the Cardinals should lose four of their remaining nine games, the Dodgers would have to take nine of 11 to win. Or, the Cards can even go under the 500 mark—say win four and lose five—and in that case, the Gowerus Gallants would have to grab eight and lose only three. And if the sons of St. Lou should fall completely apart and drop six out of nine, Duncrocher's Darlings still would need seven of 11 to come home on the haulwagon.

As both outfits went back to work today for more target practice at the same bulls-eyes, here's the way the layout lined up:

W	L	GB	GP
Cardinals	38	47	9
Dodgers	35	48	2

However, the Dodgers are still better than a hundred-to-one shot. Certainly the manner in which they came back after their two days in deepdock for repairs did them no harm.

It is true they didn't look as any pitching that might be called classy but they were swinging as though a Cardinal's face was painted on every ball. Delph Camilli connected for two homers and two singles and knocked four runs in for the brown-ding job and every one in the lineup collected at least one hit during the afternoon to back up Whit Wyatt's steady showing.

Meanwhile, the Cards combed Jim Tobin for only nine hits and they put five of them together for a winning four-run rally in the sixth.

Ernie White didn't need much to work on and for a guy who's been waiting lately about a year and a half, the outpaw looked about as injured as Whiteaway.

The pitching job of the day, however, was turned in by Mace Brown in hurling the New York Yankees to a 5 to 1 win over the Detroit Tigers. For seven innings he had a no-hitter and he wound up by giving up only two for the afternoon.

Duncrocher Stops Giants

Gon Paul Duncrocher also tossed a better-than-had job with a four-hitter that gave the Cincinnati Reds a 3 to 1 decision over the Giants.

Just in case you're interested, the Chicago Cubs climbed over the Pirates 11 to 3, the National League's fifth place by winning a twin bill with the Phillies, the first 3 to 1 to Johnny Podgorny and taking the nightcap 4 to 1 behind Miron Bithers.

Johnny Niggeling whitewashed the Boston Red Sox with seven hits for a 3 to 0 St. Louis Browns' victory. Jim Raghy tossed a five-hitter for his 10th win as the Indians beat the Senators 5 to 1, and the Philadelphia Athletics romped the Chicago White Sox 4 to 2.

Music for Gridders

Chicago, Sept. 17 (AP)—The University of Iowa football players are overcome pre-game jittery. Superior Judge Michael Mc Kinley, himself a Hawkeye grid star in the early 30's, suggests music. Judge Mc Kinley tomorrow will present an automatic record-changing machine and 10 records to Coach Eddie Anderson at Iowa City. "I know what it means to lay around a dressing room before game time, worrying your head off," Judge Mc Kinley explained. "I think music will relax the tension." One of the records is "Mike Mc Kinley of Iowa U.," dedicated to the first two years ago.

Sports Shorts

Eddie Miller, Boston Braves shortstop, is two days older than Max West, his home-hammering teammate. Next November they'll both be 26 years old. Eddie on the 26th and Max on the 28th. Propitious constellations ruled that the skies at that point in the year 1918, for both boys have All-Star Game honor stripes on their baseball records.

Advice to Pimpled Managers—If you're worried about a young pitcher who fails down fielding units, why not do like Buckey Walters of the Reds. Buckey spent six years playing third base in eight different leagues, including the National and American just for fielding practice on bunts in preparation for his lifework of pitching.

Jeff Cross, Houston shortstop called in by the St. Louis Cardinals as infield insurance along the September drive, was a campus hero at the University of Oklahoma before signing with the Redbirds' baseball educational system in 1938.

In all history only a small handful of ball players have worn big league uniforms while still enrolled in high school. Elbia Fletcher, Pittsburgh Pirates first baseman, is a member. Resident of swanky Wilton, Mass., Fletcher took his books with him to Florida in 1934 when he spring-trained with the Boston Braves, then the Reds. He had to get the principal's permission to join the club force and also had to keep up with his studies while baseballing in order to capture the coveted diploma in June.

When Mel Ott's New York Giants hung up their 73rd victory last week they had already won more games than any other Giant team had amassed in a whole season since 1938.

Monty Wagner, Pittsburgh pitcher coach, is the only player of the first modern World Series, the 1903 classic between the Reds and the Boston Red Sox, still enrolled in major league baseball.

Don't Give Cars

If you've got in mind presenting an automobile to Manager Leo Duncrocher of the Dodgers, don't do it any day the Giants are the visiting team. It's murder. Reason—Last time the fans gave Lippy Leo a testimonial motor car was back in 1937 at Sportsman's Park in St. Louis, honoring the sparkling shortstop of the Redbirds. When the ball game got going, Johnny Mize celebrated "Duncrocher Day" by blasting two homers to win a tight game, 6-2. This was all right then when they were both Reds. But nowadays the Georgia Giant does his blasting on the opposite side of the argument, for the Giants.

Voiselle Swells Giant Outlook

New Harler Is 6 ft. 4 in. and Weighs 215

The New York Giants got more gigantic all the time. Polo Grounds fans this month gaze in awe at the newest and biggest behemoth now helping Johnny Mize and Babe Berna make today's Giants look like Jim Minton's original G's of 1889, when they had to chop a new doorway in the clubhouse so the boys could get in without scuffing their domes or cracking a rib.

The new Mr. Big in Grandstand is Bill Voiselle, six-foot-four, 215-pounds of pitcher from Oklahoma City, Texas League. Big Bill debuted in Chi September 1, got his first quint at the metrop when the Giants squared off against the Dodgers the next week-end. "Fred Toney" was the verdict of the old, old Giant fans.

Bill buzzed them for Canton in the Mid-Atlantic League, last year. In June he pitched two shutouts in three days, the second a three-hitter. Early August he put together a pair of two-hit jobs.

Carl Hubbell Is Top Control King

Cooper and Wyatt Next to Giant Veteran

Carl Hubbell is still a King. Wheeling past Labor Day the great southpaw of the New York Giants was the only National League ace this year who has exacted two strikeouts from the enemy for every base on balls he dishes out.

Pretty good control index, this ratio between the passes and the whiffs. Nearest to Hub in the ratio league are Whit Wyatt and Morty Cooper, and if you're looking for success secrets try this one on your favorite staff.

It won't apply to the type of pitching which aims to make the boys hit bad balls rather than shooting third strikes past their bats. Jim Tobin, for instance, first in the league to record 25 complete games and 250 innings of work, hasn't given many bases on balls this year, his rate one pass about every 22 2/3 innings, but his strikeouts come only once in about 4 1/2 innings.

Hub, at the other extreme, has been dishing out passes about once every two innings and slapping them with a strikeout every 2 1/2 frames.

Trapshoot Slated For New Paltz on Sunday Afternoon

Sunday, September 20, the New Paltz Rod and Gun Club will be held at the Bethlehem Rod and Gun Club of Meadowbrook when the two clubs will compete in a trapshoot over the traps of the New Paltz Club. The match, a 30 bird event, will begin promptly at 2 o'clock.

Both clubs are entering any shooters who wish to enter the contest, and who are bona fide members of either club. The 10 highest scores of each club will be used to determine the winner.

The shoot is the first of a series of three such events between the two clubs. The second match will be held at the traps of the Bethlehem Club. Arrangements for the third shoot are as yet incomplete. The club taking two out of the three matches will be judged the winner of the series.

FIGHTS LAST NIGHT

(By The Associated Press)

Providence, R. I.—Ralph Zanolli, 147 1/2, Providence, outpointed Saverio Turiello, 147 1/2, New York (10).

Golfer K.O.'s Self

San Diego, Calif., Sept. 17 (AP)—The next time C. H. Scott goes golfing, he will be in the market for a baseball catcher's mask.

The last time he played, he took off—and knocked himself out. He sliced his ball into a tree. It rebounded and struck him in the left eye, saving in his cheek. Doctors said the sight could be saved.

DODGERS EXECUTE A DOUBLE PLAY

Billy Herman (left), Dodger second baseman, bounces off the ground as he pivots on a double play in the fourth inning of the game with the Pirates at Brooklyn, N. Y. That's Maurice Van Robays sliding into home for the first out on Bob Elliott's grounder to Dodger third baseman Arky Vaughan's throw, touched second and then ruled the ball to Dolf Camilli at first to nip Elliott. The Dodgers won, 10-3.

HE DIDN'T MAKE IT

Enos Slaughter, St. Louis Cardinals' right fielder, (on the ground) is out in this second base play in the game with the Braves at Boston. Eddie Miller (7) did the tagging. That's Sibby Semon in the back ground. He ran in to cover the play after throwing Stan Musial's hit to Shortstop Miller. The play came in the seventh inning. St. Louis won, 6-2.

When New York likes you... WOW!

GOSH, WHAT AN ANNIVERSARY!

No whiskey around here ever had a success like the one you've handed IMPERIAL this past year.

It just doesn't seem possible it was only twelve months ago that you New York folks suddenly started cheering this super-smooth American-made successor to Canadian-made IMPERIAL. And what a roar these cheers have grown into!

Tavern and liquor store owners predicted IMPERIAL would make the grade here. That's putting it mildly. As in the test-state—where IMPERIAL shot past all 332 other brands to take and hold first place—it is crowding the top in the Hudson Valley and Capital districts, too. Yes, sir—ask your bar owner, your tavern owner. They'll tell you IMPERIAL already has the old leaders quivering in their boots. Taste why today, at your bar...or take home a bottle.

Read what your neighbors say about Imperial

Raymond L. Winchell,
Glens Falls, N. Y.

"I've tasted that word 'velvety' as just another claim when you first started advertising IMPERIAL. But I'll be hanged if IMPERIAL isn't smoother. Lots smoother!"

William A. Holder,
Albany, N. Y.

"Velvety" for smoothness—as your bill boards say—didn't ring the bell with me until I actually tasted Imperial. Now I say 'velvety' is an understatement. IMPERIAL is the smoothest, tastiest whiskey I've come across."

Francis M. Cassey,
Albany, N. Y.

"One and only. 'A friend of mine who owns a tavern tells me he could almost give up selling other brands and concentrate on IMPERIAL, the way it's gone over. Smart people in this town!'"

Best Hospitality Whiskey
"Amazing how people who've always preferred Scotch whiskey go for IMPERIAL. Everybody's pleased when you serve this brand."

H. V. Rogers,
Hartman, N. Y.

The Toast of the Town because it's "Velvety"

1—Imperial is "velvety" for extra smoothness. Like IMPERIAL's rare base whiskeys, its choice spirits are made in the world's largest distillery—then "velvety" by a method similar to the softening of spirits used in making fine Scotch.

2—Imperial is "flavor-peaked" for extra richness. This superb American blend has that expensive, "imported-whiskey" flavor because its foundation whiskeys are specially distilled to give them individual qualities—then blended together to a delicate "flavor peak."

IMPERIAL

All-Army Gridders Meet Chicago Bears on Sunday

Bob Neyland's Ace Squad Trims Dodgers, 13-7 Before 45,000 Fans in Baltimore

Baltimore, Sept. 17 (AP) — Col. Robert Neyland's eastern Army All-Stars headed towards the toughest of their three games in a nine-day endurance campaign for the Army Emergency Relief Fund with a second pro team's scalp at their belt.

The All-Stars staged a fierce fourth quarter comeback last night to defeat the Brooklyn Dodgers of the National Professional Football League, 13-7, before approximately 45,000 persons in Baltimore's municipal stadium.

Then they entertained for Boston, where on Sunday they take on the National League champions, the Chicago Bears.

Col. Neyland wasn't optimistic about that encounter.

"I don't think we have a chance against the Bears," he said after last night's victory. "We have too little time and they have too much power."

McAdams Is Star

The All-Stars' defeat of the Dodgers was not the clear-cut victory which they gained over the New York Giants. Col. Neyland said his squad felt the effects of the previous game, adding that "the last time we have more men enlisted us to keep fresh men in the

game and this more than anything else accounted for our victory."

If there were an outstanding player among the star-studded aggregations, it was Dean McAdams. Brooklyn back out of Washington State. For the first half his booming punts, deadly passes and slashing runs kept the Dodgers ahead.

He started the lone Brooklyn scoring march in the second period, passing to Don Ellison. Perry Schwartz and Eddie Rucinski, Pug Manders finally went over from the one-yard line.

The All-Stars' wealth of manpower began to show after half time but they were denied a touchdown until the final period.

Settles Ep Seers

Capt. John Pingle, formerly of Michigan State, set up the score with repeated accurate passes. Cageto caught the Dodgers with a quick kick which rolled to the 13-yard line and Manders fumbled on the 19 as the third quarter ended. Corp. Norm Standlee, Stanford, and Cageto carried the ball to the two, from where Standlee scored.

Later, Capt. Harry Johnson, Mississippi State, and Lieut. Sam Bartholomew, Tennessee, tore the Dodge line to pieces for four first downs in a row, and Lieut. Leonard Coffman, also of Tennessee, scored from the two to clinch the victory.

Highway Design

New Jersey State Highway Department has announced that priorities on bridge and road construction materials have forced revision of completed plans and make necessary virtually new designs embodying the use of timber as a substitute for steel in bridge construction.

The thickness of concrete has been increased in roads where metal reinforcing rods cannot be obtained.

Across, a Greek physician, is reported to have originated fumigation in 473 B. C., having a plague in Athens by burning aromatics in great fires.

The Potawatomi Indians of Wisconsin believe there is an old woman up in the moon making a basket.

Maines Has Final Chance to Display Wares at Syracuse

Ballyhooed Gridders Is Set for 1912 Campaign; Solem Sees Tough Year for Squad

(This is the seventh and final article in a series giving the pre-season prospects of various Eastern college football teams written by the home coach. Today Ossie Solem of Syracuse University.)

"We have a tremendous job ahead, with a tough nine-game schedule and a very inexperienced team to work with. The team is entirely too thin for the competition—injuries to a few key men will be hard to overcome."

"The loss of Schwandt at center will hurt and we don't seem to have enough strength at tackle. Reserves throughout are a big problem. Unlike some schools, we are not able to play freshmen and perhaps get a little help from this source. We expect to field a hard-hitting team, and make things interesting for the opposition."

George Traver, writer of another football publication says, "Up on Plety Hill, above Onondaga's peaceful vale, they still wait for highly touted Tommy Maines to recapture his freshman frenzy. This highly-touted triple threat, now a senior, has one last chance to live up to the ballyhoo that launched him, and maybe this will be his year. Tommy has everything but the knack of delivering under big game pressure."

"Solemn-voiced Ossie Solem who learned his coaching primer at Minnesota, will give Maines every chance to rally gloriously. He will surround him with a string of backfield sparklers that would make Al Buba's eyes bulge."

Yes, this seems to be the year for Maines, a Kingston product. Since his freshman season with Syracuse the local youth hasn't been able to shake his continuous injuries. Whether he can do it this year remains to be seen.

This year Syracuse tangles with Clarkson, Boston University, Western Reserve, Holy Cross, Cornell, North Carolina, Cadets, Penn State, Colgate and Rutgers. This is a far cry from the head-to-head tough schedules for Bill Orange. Only Cornell and Holy Cross and a slight tip for Colgate, stand as the real opponents.

Depends on Tires

Maryville, Mo., Sept. 17 (AP)—Football rivals of Northwest Missouri State Teachers College team should request regular reports on the health of the tires on the school bus. "We will play until the tires wear out," says President U. W. Lamkin.

Mexico is increasing its shipments of hand-made baskets to the United States.

BOWLING NEWS

Doings at Emericks

Mayor William F. Edelmoth opened the Emericks' Ladies' Bowling League at Homer Emerick's Recreation alleys Tuesday night by rolling out the first ball of the 1942-43 campaign for his new team, the Mayorettes.

The mayor did fairly well by leaving only the 16 pin up. Had he remained for the match his team might have fared better as the Williams Lake squad proceeded to take three games from the Mayorettes.

Nan Broadhead of the Williams Lake squad made the 8-10 split while Evelyn Jones of the Mayorettes polished off a 4-7-4 split for two of the classic shots of the opening night matches.

Reta Frederick announced this morning that the league is now composed of 12 teams which is a good record for any league during the duration. The way it stands right now, it looks as though the women bowlers of the city will have to hold up while the male bowlers go off to take a look at the Japs and Adolph.

The two new teams, Kingston Coal and Ertels, will make up Tuesday's opening match before next week's games. By next week it is hoped that all the teams in the league will be sponsored.

At the present there is every indication that this will be realized. While Nan Broadhead and Evelyn Jones took the spotlight with their exceptionally fine split shooting Tuesday night, a number of new bowlers divided the spotlight. Ruth Bliss, a southpaw kiegler, came through with a high game of 150. Her other marks were 139 and 138 for a 397 series.

Doris Wilson, member of the famous bowling family of Chris and John, all did some nice rolling in the opening matches. It was also noted that Mickey Hutton, another newcomer, displayed good style in her first night.

Mrs. Homer Emerick rolled the high game of the season to date with her 198 Mrs. Emerick rolls with the Ertels team.

The Alpiners have a good team in the field this year. Len Flemming had the honor of rolling the first "gutter ball" while also having the first foul called against her. Speaking of split makings, Marge Jansen made the 4-4-7-4 split four times. Mary Myers, another Alpine member as is Marge Jansen, returns to bowling this year after a two year absence.

Edna Westall and Helen Smart of Reinas, had plenty of fouls called after the initial whistle. Helen Smart made the 4-7-5 split and went on to roll a 155 game. Tillie Clearwater pounded out 150.

Judging from Tuesday's matches, there's going to be a lot of activity in the league this year. The Emericks' Ladies' League got off to the fastest start of any league this year and now points for one of the highest years in the sport.

Colonial Women's Results

Twelve teams of the Colonial Women's Bowling League got off to a new start at the Central Recreation alleys last night and only three teams managed to come through with a perfect record by winning all three matches. Gils, Nekos and the Chez Emile squads won all their matches.

Two kiegler, Evelyn Provenzano and Rose Schatzel, came off with the highest triples in last night's competition, both rolling with the same club, the Joneses. They bowled 600 on marks of 159, 151 and 146 for Rose Schatzel while Mrs. Provenzano had 119, 160 and 197. The Joneses won two games from the Kaplans. Evelyn Provenzano also had high single of 187 in the match. Rose Schatzel rolled the highest triple for the losers of 443.

Hilda Matthews of the Webers squad pounded out the highest single of the night with a 189 against Nekos but the latter squad still came through with a trio of triumphs. Mrs. Perry Slover topped the Nekos team with a 412 triple. E. Weber had No. 1 high triple for the losers with her 414.

The Mayor's All Stars, headed by Rita Markle, who has returned to the alleys again after a long summer lay-off due to illness, took two games from Cys. Miss Markle rapped out a 464 triple on scores of 131, 183 and 150 showing that she's ready for a big season on the maple lanes. Rita also had the high single of the match and one of the highest hit all night. E. Watzel had 441 for Cys.

Hilda Ennist sparked the Raimond bowlers to two wins over the Trempers by blasting out a 186 single and 429 triple, both high marks in the game. Lois Trempers had a 405 for the losing squad.

The Chez Emile team won all three matches from the Imperials with L. Buboltz heading the team with a 447 triple on scores of 150, 127 and 181. M. Ferraro was high for the losers with her 398.

Marie Koenig sparked the Gils to a complete sweep over Manfro with her 434 series. Marie hit 148, 136 and 150. D. Lowery of Manfro had the high single of the match with 154.

The standings to date:

Team	Won	Lost	Pct.
Gils	3	0	1.000
Nekos	3	0	1.000
Cheez Emile	3	0	1.000
Raimonds	2	1	.666
Joneses	2	1	.666
Mayor's Stars	2	1	.666
Trempers	1	2	.333
Kaplans	1	2	.333
Cys	1	2	.333
Manfro	0	3	.000
Webers	0	3	.000
Imperials	0	3	.000

W. Mohr Rolls 323

The 1942-43 edition of the No-cando Bowling League got under way at Emerick's Recreation alleys Wednesday night but W. Mohr, leadoff of the Standards, didn't seem to be suffering from any first game conditions.

Mohr immediately took high single honors in the league when he blasted out a tremendous 233 single for the Standards who won two games from the Rosinski club. Mohr also came up with a 323 triple, the second high of the

night. His other marks were 139 and 151. Barnes Rosinski paced the losers with 406.

High triple honors of the night went to Homer Emerick, leadoff of the Emerick squad, who posted 129 on marks of 192, 149 and 188. Emericks dropped two to the Scholls.

Nortons took two games from the Mack bowlers. F. Storms, Art Jansen and Jim Norton came in with 464, 462 and 461 series for the winners. Wally Lapine posted a 505 triple for the Mack. Lapine also rolled the highest single of the match with his 264.

In the only other game last night Fredericks took two from the Eichlers as John Frederick blasted out his first 200 game of the season with 201. Johnny finished with a 421 triple. R. Kubiak of the same club had 488. Bill Ecks of Eichlers registered the high single of the match with his 698 on marks of 150, 180 and 168.

The standings:

Team	Won	Lost	Pct.
Scholls	2	1	.666
Fredericks	2	1	.666
Standards	2	1	.666
Nortons	2	1	.666
Eichlers	1	2	.333
Macks	1	2	.333
Emericks	1	2	.333
Rosinski	1	2	.333

Local Death Record

Charles R. Abbott died in his home in Glenrie Lake Park on September 15. Masonic funeral services will be conducted this evening at his home by Ulster Lodge, No. 193, F. & A. M., and funeral services will be held from the home on Friday afternoon at 2:30 o'clock with burial in the Mountain View cemetery.

Eli Rider of 219 Canal street, Ellenville, died at the Veterans' Hospital, Bronx, Wednesday, September 16, aged 54. Surviving are his wife, Mrs. Pearl Decker Rider; one son, Harvey Rider of Kerhonkson; one sister, Mrs. John Foote of Wurtsboro. The funeral service will be held at the H. B. Humiston Funeral Home, Kerhonkson, Saturday afternoon at 2:30 o'clock. Burial will be in the Pine Bush cemetery near Kerhonkson. The Rev. Douglas Fletcher of Kerhonkson will officiate.

Rummage Sale

A rummage sale of children's clothes will be held at 616 Broadway beginning Friday and continuing throughout Saturday.

DIED

DAVIS—In this city September 14th, 1942, Arthur Davis, father of Mrs. Margaret M. Chase and Melva V. Davis, Joseph A. and Donald L. Davis. Friends may call at any time at the W. N. Conner Funeral Home, 296 Fair street, where funeral services will be held Friday at 2 p. m. Relatives and friends invited. Interment in Montrose cemetery.

RENNIE—At Ulster Park, N. Y., Tuesday, September 15, 1942, Anna Mitchell, wife of John Rennie.

Funeral at the Funeral Home of Ernest A. Kelly, 111 West Chester street Friday at 2:30 p. m. Relatives and friends invited. Interment in Riverside cemetery, Port Jervis. Friends may call at the Funeral Home on Thursday between the hours of 2 and 4 in the afternoon and between the hours of 7 and 9 in the evening.

Visits Family

LIEUT. A. G. MORRILL

Lieut. A. G. Morrill visited with his family recently on his way to Mitchell Field. He was stationed at Wright Field, Dayton, O., and previously attended the Air Force Statistical School at Harvard University. He is the son of Mr. and Mrs. Arthur L. Morrill of 28 New street.

Strictly Cash for Soldiers

Washington, Sept. 17 (AP)—After a preliminary test, the war department decreed today a strictly cash policy for all soldiers at army posts in the Continental United States. Secretary Stimson announced the new order which abolishes credit privileges for personal purchases enjoyed by soldiers for decades. The department said the new policy would save bookkeeping, further efforts to reduce credit buying and expressed belief that it would "inculcate the habits of thrift in the soldier."

25 Go on Trial

New York, Sept. 17 (AP)—Twenty-five officials of the German-American Bund, including Gerhard Wilhelm Kunze, former national leader who is a confessed spy, went on trial today before Federal Judge Alvin D. Barksdale. The defendants are accused of advising Bund members to avoid military service under the Selective Service Act. If convicted, each would be liable to a maximum sentence of five years and a fine of \$10,000.

G. A. Ives Dies

Bainbridge, N. Y., Sept. 17 (AP)—George A. Ives, 84, father of Irving M. Ives of Norwich, Republican majority leader of the New York Assembly, died today.

Four Senators, 19 House Members Lost in Primaries

Those Out Include Both Democrats, Republicans; Apathy Produced by War Effort

Washington, Sept. 17 (AP)—The 1942 primaries have counted out four incumbent senators—all Democrats—and 19 House members, including 13 Democrats and six Republicans.

Of the 34 senators up for re-nomination, 24 were Democrats; nine Republicans, and one Independent. Nineteen Democrats were renominated, four defeated, and one, Green, Rhode Island, is expected to be renominated at a state convention late this month. All nine Republicans won the right to run again in November, and Norris, the lone Independent, has yet to announce whether he will run again.

Considering the number of sitting members that ran again, this is a normal casualty list for off-year voting. It is not expected to be changed much, if at all, by the new state and district conventions and run-offs still to be held in Rhode Island, Connecticut (Democrats only) and Louisiana.

Preoccupation with the war, with thousands in the armed services and other thousands involved in war-job migrations, produced an apathy unparalleled in recent years in both voting and attendance at political meetings.

Isolationism versus interventionism, a lively issue before Pearl Harbor, bobbed up here and there in the primary contests, but apparently swayed few voters. In most cases, it seemed, the voters took into account, among other things, how the candidates stood on the war currently rather than their pre-Pearl Harbor stands, as evidence by renomination of many former "isolationists" in Wisconsin, Washington, and other states.

The four Democratic senators losing out were William J. Bulow, South Dakota, two-termer, defeated by former Governor Tom Berry; James H. Hughes, Delaware, convention loser to E. Ennels Berl, Wilmington lawyer; Berkeley L. Bunker, Nevada, young 1940 appointee, defeated by Rep. James G. Scruggs, and Wall Dooey, Mississippi, who trailed James O. Eastland in a run-off last Tuesday.

House Democrats who failed of renomination were Kocialkowski, Illinois; Patrick, Alabama; Schulte, Indiana; Faddis and Moser, Pennsylvania; Cartwright, Oklahoma; Swensen, Ohio; South, Texas; Ford, Mississippi; Boggs, Louisiana; Meyer, Maryland; Eliot, Massachusetts, and Tenerowicz, Michigan.

Republican representatives who lost out were Paddock, Illinois; Jarrett, Pennsylvania; Oliver, Maine; Robertson, North Dakota; Youngdahl, Minnesota, and Jenks, New Hampshire.

Jersey Speed Limit Set

Trenton, N. J., Sept. 17 (AP)—Governor Charles Edison, acting at the request of federal authorities, today proclaimed 35 miles per hour as the maximum speed limit on any New Jersey public highway road or street. Edison's order excepted zones where speeds of less than 35 miles were in effect.

Soft Coal Burns

The fire department responded to a still alarm this morning for a fire in a pile of soft coal at the Jacobson shift factory. The fire was caused by spontaneous combustion.

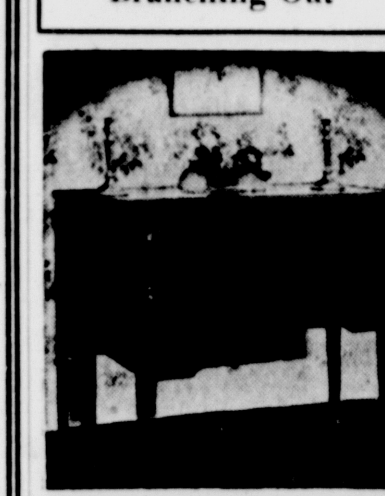

Action Is Completed

Washington, Sept. 17 (AP)—The Senate completed legislative action today on a measure extending until November 28, 1942, the time limit for filing capital stock tax returns normally due last July 31.

Interlocked Grain in Hardwoods

Interlocked grain in hardwoods is a common characteristic in a number of hardwoods and its presence in dressed weatherboards is shown by alternating bands of rough and smooth wood. Over these rough bands the paint tends to crack and peel unless a suitable paste filler is first applied, over which the priming coat should be applied. This operation makes good painting of hardwoods a rather more elaborate and expensive proposition than the painting of fine grained softwoods. It is rarely carried out except in the case of furniture and coachwork.

Branching Out

No longer are chests confined to bedrooms and storage spots, nor buffets to dining rooms. With their grand drawer space and broad tops that hold many decorative novelties, chests may serve smartly in living room quarters today. The small buffet shown would do just as well in a living room or hall as in the dining room where its nice design would add distinction to a traditional 18th Century setting.

In Florida

PVT. ERNEST RYAN

Private Ernest J. Ryan, son of Mr. and Mrs. Ernest Ryan of 2 Mary's avenue, enlisted in the United States Army Air Corps and is now stationed at Miami Beach, Fla. Before entering the army, he was employed by the Kingston Paint & Glass Co.

Canadian Jay Bird Held To Be a Lovable Robber

In the North Woods lives a bird familiar to everybody who has hunted, fished or camped there. He is a robber, but a lovable one.

"Some time ago I was the victim of one of them," writes William H. Graham in the Omaha World-Herald. "It happened on a fishing trip into the wilds of Canada, about 65 miles northeast of Fort Francis, in October."

"Our party had stopped for lunch on a rocky point of Lake Manitow. Dense forest began not over a hundred feet away."

"Our guide, Norman Isberg, of Camp Manitow, had fixed up some hot baked beans, cold meat sandwiches and tea. As we were eating we first noticed a pretty silver-colored bird, with a little gray top-knot, flitting about. He wasn't quite as large as a robin."

"He was perched in a tree about 25 feet away, eyeing us cautiously. I threw some bread crumbs at the foot of the tree and without hesitation he scrambled down after them. Our movements about the camp fire didn't seem to frighten him the least."

"Norman told us he was a Canadian jay bird, 'camp robbers' to the North Woodsmen."

"You can't build a camp anywhere in the North Woods but that one or two of them will be around begging for food," Norman told us. "They're nifty little fellows."

"I tossed out some more bread crumbs, this time about ten feet away. Sure enough, Mr. Jay came hopping right in after them."

Animal Life Survives in Ancient, Weird Forms

Madagascar, the French island off southeast Africa, has been called a museum of ancient forms of animal life. They have been saved from extinction because there was no competition with stronger creatures. Apparently once a part of Africa, the island was severed from the continent before larger mammals developed. It has no lions or elephants; even apes and monkeys are missing.

But monkeylike are the lemurs, of which Madagascar has most of the known species. Night-prowling lemurs live in tree tops, utter plaintive wails. Some, if captured, make gentle, amusing pets. A few are as large as a fox, some as small as a mouse.

"Certain lemuroids—akin to the lemurs—have legs joined by a parachute-like membrane, enabling them to 'fly' from tree to tree. Another lemur relative is the weird, catlike aye-aye. With powerful teeth, it bores into trees like a woodpecker for insect grubs. One finger, long and skinny, is equipped with a hook, which draws grubs out of the cavity. The eyes are large, to enable the aye-aye to work at night. The ears protrude, to catch the faintest larva sound."

"Madagascar is the home of the chameleon, lightning color-change artist of the forest, and of the four-foot fruit bat."

Penny Milk for Underprivileged

Underprivileged children attending Seattle's public playgrounds this summer can buy half-pint bottles of milk for one cent each through action of the city park board, according to information from the American Municipal association.

They may also get ten-cent hot lunches if plans now under consideration are adopted.

The penny milk selling is part of the program inaugurated by the U. S. department of agriculture several months ago for areas where milk is handled under federal marketing orders. By arrangement with local milk producers the federal government buys the milk to give to any city, civic organization or individual who will distribute it at a cost to the child consumer of one cent or less a half-pint. The milk is purchased from farmers in the area.

About 70 schools were enrolled in the plan this spring and a number of cities are expected to continue the distribution through playgrounds during the summer.

The present penny milk plan is an outgrowth of a previous experiment undertaken in Chicago two years ago which was extended to 76 areas in the country.

North American styles have routed French-inspired models in Buenos Aires, Argentina.

Financial and Commercial

New York City Produce Market

New York, Sept. 17 (AP) (State Dept. Agr. and Mkts.)—Trading was generally slow for most vegetables today. Prices were weaker for white cabbage, cauliflower, celery, spinach and poor quality lettuce, but stronger for Long Island potatoes. Demand was good for a few attractive quality snap beans, but slow for poor quality, and cauliflower receipts abundant.

Demand was light for apples and peaches but moderate for pears and prunes.

Fruits: Apples—Hudson valley district, box or bu bskt, various grades, Cortland 3-in min 1.25. Delicious 2½-in min 1.25-50. Fall Pippins 3-in min 1.25. Northwestern Greenings 2½ to 3-in min 85-1.12½. Rhode Island Greenings 3-in min 1.25-50. McIntosh 2½ to 3-in min 1.25-50. Utility and unclassified 30-100. Opalescent 2½ to 3-in min 1.25; unclassified 75. Wealthy 2½-in min 75-1.12½. Wolf River 3-in min 75-1.00. Snow 2½-in min 1.00.

Crab apples—New York, Oswego county and Hudson valley district, various varieties, box or bu bskt 75-1.50.

Grapes—New York, Hudson valley, various varieties, wide range quality and condition, juice, 12-qt climax bskt, Concord 50-75; Niagara 50-65; red 50-75; table, 8-qt Concord 50-75; 4-qt 30-35. 2-qt 20-25; Sheldon 1.75.

Pears—Hudson valley, Elberta and Stevens, 6-bskt carrier, large 2.50-3.50. Stevens 1½-in min 1.00-1.75.

Pears—New York, various sections, box or bu bskt, various grades and sizes, quality and condition variable, Anjou 2.00; Bartlett 1.00-2.75; Bosc 2.00; Clairgeau 1.50-2.00; Clapp's Favorite 1.75-2.75; Kieffer 75-1.25; Seckel 2.00-2.50; Sheldon 1.75.

Plums—New York, Hudson valley, Damson, 12-qt climax bskt 1.75-2.00; 4 qt bskt 75; blue and red varieties, ½-bu bskt or box 1.25-50.

Prunes—Hudson valley, Fellenberg, small, ½-bu bskt 1.25-50. Butter 75-1.00.

Creamery: higher than 92 score and premium marks 44-45½; 92 score (cash market) 43½; 88-91 score 42-43½; 85-87 score 39½-41½.

Cheese, 404,453; firm; prices unchanged. Eggs 17,901; firm.

Whites: Fancy to extra fancy 47-53; specials 46; standards 41½-42.

Browns: Fancy to extra fancy 44-51; specials 42-43.

Soldier Gets \$350,000

Montgomery, Ala., Sept. 17 (AP)—The Camp Rucker Public Relations Office reported today a private in a chemical warfare company had been paid \$350,000 for a patent by one of the largest chemical companies in the country. A research chemist for ten years before his induction into the army last April, the soldier is Pvt. Theodore E. Borst, of Clinton, N. Y. His Camp Rucker unit is the 54th Chemical Company and the commercial chemical company is du Pont. Borst's patent was in the field of agricultural chemistry.

Borst entered the army from Middletown, Conn., where he was engaged in research in the laboratories of Wesleyan University.

Treasury Receipts

Washington, Sept. 17 (AP)—The position of the treasury September 15: Receipts \$127,591,890.85. Expenditures \$176,009,438.15. Net balance \$1,724,845,348.02. New York, Sept. 17 (AP)—Rail and low-priced specialties contributed moderately bullish fuel for today's stock market although the majority of recognized leaders failed to make much progress.

Tax doubts, the anti-inflation shuffle and uninspiring war bulletins restrained many potential purchasers but individual situations apparently brought in bids for favorites. There was little weakness in any group and modest plus signs predominated near the fourth hour. Except for liveliness of so-called "penny" shares, dealings were relatively slow.

Bonds were active and higher. Commodities steadied.

The list, hesitant at the start, soon improved. U. S. Distributing Preferred touched a new 11-year peak. In front the greater part of the time were Santa Fe, N. Y. Central, Union Pacific, Southern Pacific, U. S. Steel, American & Foreign Power and Goodyear. Panhandle Producing and International Telephone came out in large blocks at around Wednesday's final quotations. American Telephone slipped. Along with General Electric, du Pont, Anaconda and U. S. Rubber.

The direction was a trifle foggy in the early but Panopee, Penn. road, Sherwin Williams, St. Regis Paper and Wright Hargraves were given intermittent lifts. Backward were Aluminum of America, Mesabi Iron, Republic Aviation and Sunray Oil.

Interest in carrier securities revived to some extent of the summary of the Association of American Railroad showing gross revenues of 89 class I lines in August reached approximately \$548,000,000. A 36 per cent gain over the comparable 1941 month.

Keeping U. S. Distributing in the limelight were expectations that the long-discussed consolidation of this company with Pittston Co., of which it is a subsidiary, might be realized in the near future. At the end of 1941 back dividends of Distributing Preferred were \$77 a share.

Would Freeze Security
Washington, Sept. 17 (AP)—A resolution to freeze Social Security taxes at present levels was prepared for introduction in the Senate today by Senator Vandenberg (R-Mich.). Vandenberg said the measure not only would counteract anticipated treasury proposals to increase these taxes to a total of five per cent, but would, if adopted, prevent the

HIGHLAND

Highland, Sept. 17 — Mrs. W. E. Taber was substitute player in the Friday bridge club at Mrs. Philip Wilkows. Other members present were Mrs. LeGrand Haviland, Jr., Mrs. John G. Lucas and Mrs. N. D. Williams. Having ten members the club can fill in vacancies.

Miss Barbara Lent spent Monday in New York.

Miss Nancy Dean returned to New Paltz State Teachers College Monday for her senior year.

William Cramer is on vacation this week from his work in Poughkeepsie and with Mrs. Cramer spent a few days the first of the week with her sister, Mrs. Alfred Hunt, at Dixell.

Mr. and Mrs. Harry B. Cotant returned Sunday from a week spent at their camp at Lake Ka-... ..

Calvin Halstead, son of Mr. and Mrs. Robert Halstead came from Providence, R. I., on a five-day furlough and was to be transferred to another camp on his return.

Jean Ann Noe, daughter of Mr. and Mrs. Eugene Noe, broke her left arm Monday, while playing.

Mr. and Mrs. George DuBois and son, Malcolm, returned Monday evening from Lake George where Mrs. DuBois and son had spent the summer. They are at home on White street.

Mr. and Mrs. Jack Hogan of Fishburg were week-end guests of their relatives, Mr. and Mrs. Harry Colyer.

Miss Nancy Dean returned Sunday evening from a week-end spent with Mr. and Mrs. Daniel Chase in New York.

William Donovan, who is in training at West Point, spent Saturday night and Sunday here and in Poughkeepsie.

Donald Wood, son of Mr. and Mrs. George Wood left Wednesday to join the navy.

Mr. and Mrs. Edwin Clark will spend Friday in New York with Mrs. Clark's son, Robert Dean.

Miss Lillian Raffaldi, who was one of the central school faculty last year spent the week-end with Mr. and Mrs. Allan Hasbrouck and left Wednesday to take an office position in New York.

Mrs. Fred Lewis left Tuesday for Middletown to spend a few days with friends.

Roger Boyce, son of Mr. and Mrs. Edgar Boyce left Tuesday to join the marines.

Mrs. A. W. Lent and Miss Barbara Lent returned Sunday from attending the Youth Presbytery conference at Camp Sloan where 31 young people were in attendance from churches in North River Presbytery. The attendance was less owing to lack of transportation facilities. Mrs. Lent was instructor and Miss Lent assisted in the recreation. Ralph Taylor of the Freedom Plains church is moderator of the Presbytery. The young people will hold their next meeting and rally between the holidays for a supper meeting in the local Presbyterian Church hall.

Miss Charlotte McCargar of Ogdensburg, who has been visiting her niece, Mrs. Edwin Clark left last week to visit relatives in Verona, N. J.

Mrs. Edward Rhodenbergh of Metuchen and her sister, Miss Marian Welker of Princeton, N. J. will spend the coming week-end with their mother, Mrs. Franklin Welker at Braecroft.

Richard Burton, Jr. and Miss Henrietta Woolsey spent Sunday with Mr. and Mrs. Harry B. Cotant at Lake Katrine.

Martin Salomon returned Sunday from St. Francis Hospital, Poughkeepsie, where he underwent an operation.

William F. McCarthy spent Monday and Tuesday on business in Geneva.

Miss Barbara Lent enters Vassar College Friday for her senior year.

Owing to a misunderstanding there was no meeting of the Lions Club Monday evening, but the meeting on the 21st will be at Ben's Tavern in Esopus.

The election of officers for the senior class in the high school took place Monday with Miss Martha Lapp named president, the Misses Shirley Filkins, vice president; Vivian Nielsen, secretary; Nancy Rathgeb, treasurer. The senior play committee is composed of Miss Nancy Richards, Theodore Lyons, Stuart Schantz, Miss Martha Benesch and Harold Monnat are home room teachers.

On the second week of school registration in the grades remained the same as the previous week. The high school had 20 pupils less than the same time last year but about that number are working on the farms.

Mrs. Louis Monninger, Jr., and a friend came up from New York Saturday and on their return Monday were accompanied by Mrs. Louis Monninger, who had spent several weeks in the home of Mr. and Mrs. Edward Curry.

Grapes were being taken into the Hudson Valley Pure Food Co., Tuesday afternoon and pressing was to begin the next day.

Reservations may be made to Mrs. C. W. Rathgeb for lunch in the Presbyterian Church hall for September 24 when the 12th annual coaching conference of North River Presbytery will be held. Mrs. Irving Scott of Kingston is the leader and the afternoon sessions open to the public will be at 2 o'clock.

One of World's Oldest Spots Russia's 1941 flow of oil filled about 240,000,000 barrels, ranking the USSR next to the United States as the world's second largest "filling station." Between 80 and 85 per cent of it appears to have come from the Caucasus, where exact production figures are a military secret. Once 97 per cent of all Soviet Russia's oil welled up in Baku fields, but defense-conscious Soviet development of safer wells farther east has made the Caucasus output a smaller percentage of Russia's total. Caucasian oil is valued for the anti-knock qualities of its gasoline and for the lubricants it contains.

"Amen" is an ancient Hebrew word meaning true, or faithful.

Food

Patriotic Pickles Provide Pep

PICKLED PEACHES . . It's thrifty to can them in glass coffee jars.

By MRS. ALEXANDER GEORGE
Wide World Food Editor

Dame nature certainly knows her onions this year. She has turned out a bumper crop of this very versatile food along with other vegetables and fruits to be enjoyed in relishes throughout the winter.

Spiced apricots and peaches, perky with Vitamin A, pickled melon rinds, patriotic with their part syrup sweetening, and the usual run of zippy pepper and tomato relishes were never more needed.

These delicious home-makers help fill the gaps in many meals caused by food priorities.

Relishes and chutneys mixed in sauces for vegetables or fish dishes or added to dressings for salads and sandwich fillings give a come-hither look to many a fall meal.

OLD-FASHIONED PICCALILI: Wash and dry 5 pounds of firm green tomatoes (not peeled, but blossom ends discarded.) Wash and dry 5 large-sized green peppers, cut in halves, discard seeds and pulp. Peel 15 onions, about 1 1/2 inches in diameter. Put all vegetables through chopper or chop in a bowl. Add 2 1/2 cups salt and let stand, covered, over night. Drain thoroughly and lightly press out the liquid with a spoon. Transfer the vegetables to a kettle and add 2 cups diced celery, 1 cup chopped sweet red peppers, 2 cups vinegar, 2 1/2 cup sugar, 1

cup light corn syrup, 1 1/2 tea-spoons ground cinnamon, 1/3 cup whole pickling spices loosely tied in white muslin cloth. Slowly bring to boiling point and simmer 30 minutes or until thick. Stir frequently with wooden spoon. Seal in sterilized jars. Discard the spice bag before canning. Store in cool, dark, dry place.

AUNT RATTIE'S CHILI SAUCE: Scald and peel 1/2 bushel of firm ripe tomatoes. Bring to boiling point in large kettle. Add 5 cups each chopped green peppers and white onions. 2 cups diced celery, 1 cup sugar, 1/3 cup light colored corn syrup, 1/3 cup salt, 2 tablespoons mustard seed, 2 teaspoons cinnamon, 1 teaspoon cloves and 2 cups vinegar. Cook slowly over asbestos mat set over low heat until sauce thickens — this usually takes between 2 1/2 and 3 hours. Pour into sterilized jars and seal at once. Since some vegetables take more salt than others it is advisable to taste the sauce before it has finished cooking and add more seasoning if desired.

OIL PICKLES can easily be made today by using a salad oil, if olive oil is not available. No sugar is called for. Wipe with damp cloth 50 firm green cucumbers (3 to 4 inches long). Cut in thin slices crosswise and sprinkle with 1/4 cup salt. Let stand 4 hours. Drain and add 2 cups thinly sliced small white onions, 2 tablespoons celery seed, 2/3 cup white mustard seed, 1/4 cup shredded sweet

red peppers, 5 cups vinegar and 1 cup oil. Mix thoroughly and pour into sterilized jars. Seal and let ripen 3 weeks or so before using. Store in cool, dark, dry place.

BANCROFT CORN RELISH: Mix 8 cups corn cut from the cob, 2 cups diced celery, 1 cup each chopped green peppers and onions, 3 cups chopped cabbage, 1/3 cup salt, 1/4 teaspoon paprika, 2 tablespoons dry mustard, 1/4 cup celery seed and 2 1/2 cups vinegar. Boil gently an hour or until thick. Pour into hot sterilized jars and seal immediately.

Pickled Peaches

15 pounds peaches
1 tablespoon whole cloves
1 tablespoon allspice
4 ounces stick cinnamon
6 cups sugar
6 cups glassed dark syrup
4 cups cider vinegar

Immerse firm, unblemished peaches in boiling water for about 1/2 minute or until the skins will slip easily. Plunge at once into cold water, then remove skins. The spices in a bag made from two thicknesses of cheesecloth. Combine sugar, syrup and vinegar in a large kettle. Add spices and bring to a boil. Add 10 to 12 peaches at a time, cook until tender, 5 to 6 minutes. Remove fruit and pack into clean, hot jars. Then fill containers with hot pickling syrup, filling clear to the top, and seal jars.

Candidate Dewey Will Conduct Extensive Radio Campaign

New York, Sept. 17 (AP)—Be-

cause wartime travel restrictions and employment pressure preclude the traditional personal appearances, Republican gubernatorial Candidate Thomas E. Dewey will conduct an extensive radio campaign.

Herbert Brownell, Jr., G.O.P. campaign manager, announced last night weekly broadcasts over 18 state stations beginning October 5 and continuing until Election Eve, November 2. He termed it the most extensive use of radio ever undertaken in a state campaign.

Dewey will talk from 7:15 to 7:30 p.m. each Monday. Speeches by Dewey and other G.O.P. can-

didates at "key centers" also will be aired, Brownell added.

Dewey is to attend today the Coney Island Mardi Gras parade for air raid wardens while his Democratic opponent, State Attorney General John J. Bennett, Jr., visits the Nassau County Fair at Mineola.

Michael J. Kennedy, Tammany Hall leader, announced last night a separate committee within the Hall would aid the candidacies of Bennett and his running mates.

The committee, Kennedy said, will work with State Democratic Chairman James A. Farley and be under the general supervision of the independent citizens committee headed by Sol H. Silver.

Artificial Light Brings Greater Egg Production

Birds of any age just completing a year of egg production will benefit by the use of artificial light from the middle of August until they have started to molt, says C. S. Platt, associate poultry husbandman at Rutgers university. This will vary with individuals, some birds actually continuing production until December or later, he adds.

"Pullets hatched in 1942 also can benefit from the use of artificial light if they have been in production for a period of four to six weeks," Platt declares. "It is not wise to use additional light for young birds that have not yet started their egg production."

Artificial light in poultry houses is provided to stimulate the birds to a higher rate of egg production in the season of the year when the hours of normal daylight are not long enough to meet the birds' requirements in this respect. Recognizing the fact that an increased amount of light in the fall provides an abnormal situation for fowls, it is well that birds subjected to such conditions be in good health and physically able to respond to the best advantage.

"When lighting is used it is advisable to see that the birds have a full 13 hours of light, including both natural and artificial," according to Platt.

Spain has prohibited the use of wheat flour in pastries and cakes.

MODES OF THE MOMENT

—BY DOROTHY ROE—

FLAKO
PIE CRUST

SURE RESULTS No more pie-making troubles. No more baking "ups and downs". Flako means the same delicious results every time you bake because the ingredients are precision-mixed. And they're the same good quality ingredients you use. Get Flako, then just add water, roll and bake.

FLAKORN
CORN MUFFIN MIX

Sure results are also yours with this fine quality, and convenient product.

SAUCE FOR SLACKS: Custom cuff ship 'n' shore shirt in spanking white broadcloth, with man-tailored details, it also doubles admirably with suits.

The Weather

THURSDAY, SEPT. 17, 1942
Sun rises 5:50 a. m.; sun sets 7:06 p. m. E.W.T.
Weather, clear

The Temperature

The lowest temperature recorded during the night by The Freeman thermometer was 60 degrees. The highest point reached up until noon today was 75 degrees.

Weather Forecast

New York city and vicinity—Continued warm and humid, with light to moderate winds this afternoon and tonight.

Eastern New York—Continued warm today and tonight except showers and cooler in the north portion tonight.

CLEARING

Pigeons Will Assist

New York, Sept. 17 (AP)—Flying pigeons are in training as future army messengers will carry messages spreading news of the War Bond drive on Saturday in a special derby from New York city to Albany. The messages will include notes from Richard C. Patterson, Jr., state war savings staff chairman, and state administrator David Ford, to Governor Lehman.

The first successful flight across the Atlantic was made in 1919 by the U. S. Navy flying boat NC-1.

Classroom Dunces Killed Girls High In School Work

Bedford Center, N. Y., Sept. 17 (AP)—A sullen youth—neighbors knew him as the "classroom dunces"—sat in a county jail cell today after leading police over the trail that spelled abduction, torture, rape and death for two children whose last achievements were two excellent report cards.

He was Edward Haught, 17, whose home had been a two-room shack with an orange crate as his chair, his victims were Margaret, 7, and Helen Lynch, 8, whose father worked and cared for them because their mother was a tuberculous patient in a nearby hospital.

The change of living quarters for Haught appeared to affect him little.

"I might as well get it over with," he mumbled, when he was arraigned in Bedford town court on first degree murder and kidnapping charges. He appeared bored with the proceedings.

Then, manacled to a State Trooper, he began his tour of the place where he confessed he murdered and killed the children on Monday night. The tour was punctuated with such remarks as "I don't know where I threw one of them out of the car"—"I threw her off this bridge into the creek"—"I ran over her head with the car here, several times."

Police said that Haught confessed he stole a station wagon and picked up the children Monday night. He drove to a wooded section near this hamlet and raped Margaret. Then, after binding and gagging both children, he drove back to town, bought some razor blades, and drove on to a small bridge. There he murdered Margaret with a knife and threw her into a creek.

Later he drove to a pond leading into New York city's Katonah reservoir system, and after raping Helen he drove the car over her. Then he tossed the body into the pond.

On his tour with police yesterday, he and the police stopped at the site where he bound and gagged the children.

"They objected," said Haught, deeply eyed, "I laughed. I told them it was a joke."

Attorneys Confer On Gadd Action

Counsel Discusses Legal Points at Session

Moved for trial Wednesday morning, the action brought by Grace Gadd against Universal Road Machinery Co., and another to recover \$250,000 for death of her husband, Raymond Gadd, was delayed during the day by conference between counsel and the court. Throughout the day the matter of legal questions was under consideration but this morning the selection of a jury to try the issue was started.

Gadd was killed in a motor car crash on October 13, 1940, when a truck of the company crashed at the entrance to the Higginsville bridge across the Esopus. The truck was occupied by Gadd and Edward J. Butler, an employee of the company. Gadd died from injuries suffered. The appeal was based on the contention that the accident was against the weight of the evidence.

Plaintiff was awarded a \$25,000 verdict on a former trial but the case was sent back after an appeal for retrial. It is the contention of plaintiff that Butler had permission to use the truck and that he drove the truck at the time of the crash. The corporation contends that Butler had taken the car without permission. Butler contends that Gadd was driving the car at the time of the accident.

N. LeVan Haver appears for the plaintiff, A. J. Cook for the Universal and Charles J. Flanagan for Mr. Butler.

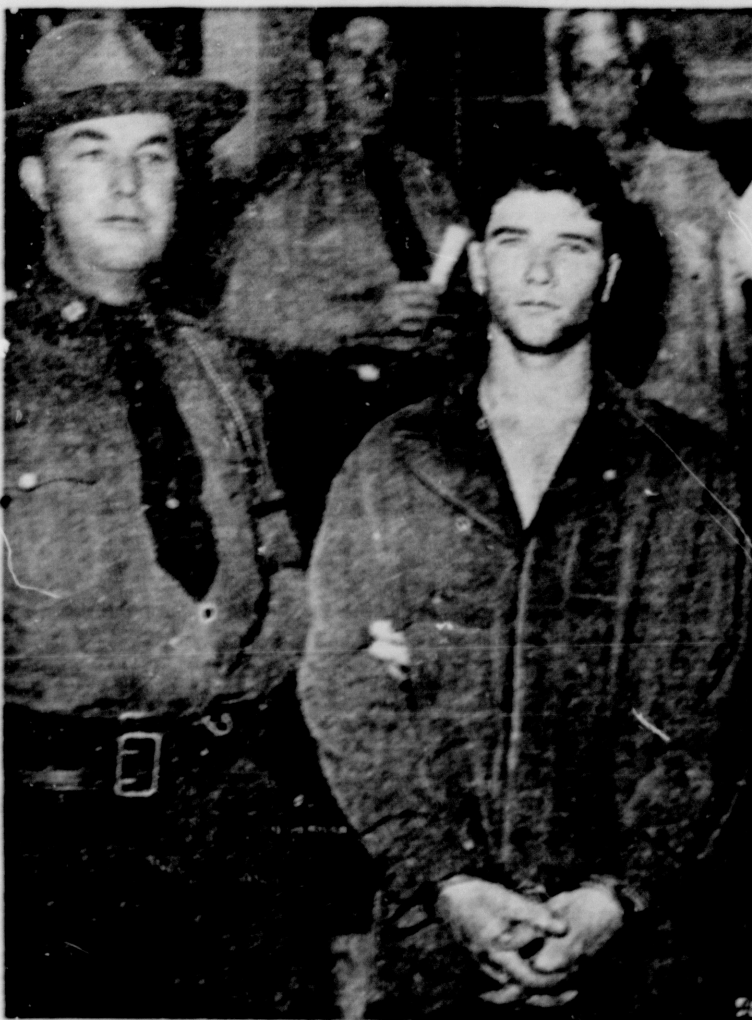

The entire morning session was taken up in the selection of a jury to try the issue.

Named Cashier

William Ziegler of Cleveland, Ohio, a son of Mrs. Jennie Ziegler and the late Mayor William Ziegler of Saugerties, has been elected cashier of the Saugerties National Bank & Trust Co., to fill the vacancy caused by the death of George John F. Carrington. Mr. Ziegler will assume his duties at the bank on November 2.

The Tannan peninsula is the northwestern limit of the Caucasus mountain range.

HELD FOR KILLING TWO GIRLS

Edward Haught, 17, (right) of Stamford, Conn., is shown in custody of an officer as he was held on charges of kidnapping and killing Margaret Lynch, 7, and her sister, Helen, 8, of Bedford Center, N. Y.

Uncomfortably Cold Homes Are in Prospect, Leon Henderson Warns

In Training

HAROLD F. SMITH
Harold F. Smith, son of Frank W. Smith and the late Mrs. Ida Bailey Smith, returned Sunday, August 30, to the United States Naval Training Station at Newport, R. I., after spending a week's furlough with his family at 11 Stanley street. Before his enlistment in the navy he was employed in the shell plant at Hercules Powder plant in Port Ewen.

Legion to Hold Regular Meeting Friday Evening

The regular meeting of Kingston Post, No. 150, American Legion will be held at the Memorial Building, West O'Reilly street Friday evening, September 18 at 8 o'clock. This will be one of the most important meetings of the year and plans will be discussed for the Victory Ball which is one of the highlights of the Legion year. It is expected that committees will be appointed for this important event which takes place on Armistice evening.

All Post committees will make reports of the work done during the past month. The post activities chairman has promised a treat. Due to the presence of the Commander at the National Convention at Kansas City this week, the meeting will be under the supervision of one of the vice-commanders. A full attendance of all members is looked for at this meeting.

BRINGS LUCK TO ARMY'S AIRMEN

Ensign the Jeep, character in the Popeye comic strip whom came to Army's rescue for the vehicle now popularly known as the Jeep, was Popeye's navigator on one of the old sailor's famous expeditions. St. Eugene is the symbol of the navigation squadron of the Air Force Advanced Flying School, Turner Field, Albany, Ga., where navigators are trained for such expeditions as Doolittle's to Tokyo and Babcock's to the Mediterranean. It's customary of Tokyo and Babcock's to the Mediterranean. It's customary of Tokyo and Babcock's to the Mediterranean. It's customary of Tokyo and Babcock's to the Mediterranean.

City's Honor Roll Third Panel Hung

The third panel of the temporary honor roll of the men now in the armed service of the country has been hung beside the previous two panels in the corridor on the second floor of the city hall. The three panels contain approximately 900 names.

F. J. Knaonen of Greenkill avenue, an artist employed on the local W. P. A., designed the temporary panels and inscribed the names on them.

It is planned at the close of the war to take steps toward having a permanent Honor Roll, similar to that containing the names of those who served in the first World War, which is positioned in front of the city hall.

Six Fliers Killed

Birmingham, Ala., Sept. 17 (AP)—An Army bomber crashed into the rocky peaks of Double Oak mountain yesterday with the loss of its six occupants. The B-26 twin-engine medium bomber was demolished in the accident some 20 miles southeast of here, the Birmingham air base said. Visibility was poor at the time of the crash and the pilot was believed to have rammed into the peak just after he turned sharply to avoid another. The plane struck some 600 yards from the Birmingham-Childersburg highway in a rocky area covered with mountain oaks.

At Air School

PVT. JOHN LANGE
Private John Lange of the Army Air Corps has returned to school at Boston after spending a brief furlough with his mother, Mrs. Margaret Lange of 207 East Strand. He was recently stationed at Miami, Fla.

Milkweed as Lifesaver

Petokey, Mich., Sept. 17 (AP)—Michigan today began harvesting milkweed to be used in the manufacture of life preservers for American sailors. It is regarded as even more buoyant than the kapok, used before Japanese occupation of the Dutch East Indies where it grows. The flower, warm and lighter than wool, also will be used in aviation jackets.
